SHOW POLICE BEHIND PLOT

Whitman Clearing Trail in New York Murder Mystery.

CENTERS ABOUT BALD JACK ROSE

Important Indictments Expected from Grand Jury Session.

New York, July 24.—The trail that leads to the men who framed the plot to slay Herman Rosenthal, the gambler, is slowly clearing and District Attorney Whitman believes today that from the bits of evidence gleaned here and there he will be able to show that the "police system," and even those higher up were behind the plot to silence Rosenthal before he could make further gambling revelations.

From Harry Vallon, gambler and one of the occupants of the "murder car," the public prosecutor learned further facts that implicate "Bald Jack" Rose, close friend of Police Lieutenant Becker, and who hired the gray automobile that took the gunmen to the scene of the shooting. Mrs. Rosenthal, widow of the gambler, told the grand jury that Rose was Becker's closest friend and charged that Rose was the lieutenant's gambling house collector.

With arrests of other gunmen the public prosecutor expects to learn enough to involve Rose further in the murder plot and by so doing force him to make a full confession and reveal those who were behind the killing.

William Shapiro, driver of the "murder car," and Louis Libby, one of the car's owners, will probably be permitted to turn state's evidence, counsel for the pair having informed the public prosecutor that Shapiro knows all the men who were in the car and that if he does not know their names he will be able to identify them.

SAY MANY ARE HURT IN WRECK

Frisco Train Derailed Early Today Near Lebanon, Missouri.

RELIEF TRAIN IS SENT

Springfield, Mo., July 24.—Many passengers were injured when an eastbound Kansas City-St. Louis passenger train, on the St. Louis and San Francisco railroad, was derailed near Lebanon early today, according to reports received here. Railroad officials say no person was killed. A relief train was sent from Lebanon.

THE RAILROAD REPORT.

St. Louis, Mo., July 24.—Reports received from the Frisco headquarters today are that train No. 8, en route from Oklahoma points to St. Louis, was partly derailed this morning. The chair car, day coach, two baggage cars and the engine tender left the track.

A baggageman and a few passengers were injured, according to the report. The cause has not been assigned.

Widow of Murdered Gambler a Witness

MRS. HERMAN ROSENTHAL.

New York, July 24.—Mrs. Rosenthal, widow of the gambler who was shot down on the street a few hours before he was to give evidence to support his charge of graft in the police department, was a witness before the grand jury yesterday. She is believed to have told much about the meeting between her husband and Police Lieutenant Charles Becker, who, according to Rosenthal, was his silent partner in the gambling house.

RESCUED AS YACHT SINKS

Idler Goes Down as Big Steamer Strikes It Off New York.

TUGS TAKE OFF ALL IMPERILED

Sleeping Crew of Tank Steamer Driven Out by Flames.

New York, July 24.—The steamer Old Colony, of the Metropolitan Steamship line, while turning the Battery on her way from Boston to this city this morning, crashed into the yacht Idler, which sank almost immediately. The passengers on board the Idler and the yacht's crew were taken off by tugs before the boat went down.

One of the passengers of the Idler, Mrs. Julia M. Skidmore, of Brooklyn, was seriously injured. Others of the yacht's passengers suffered from shock and were attended by physicians. Mrs. Skidmore was thrown into the water by the collision and was picked up by one of the Idler's lifeboats. There were fourteen persons on board the yacht, four women and two children and a crew of eight.

After the yacht was struck the Old Colony continued on her way to her dock.

The yacht Idler is owned by Albert H. Carlist, a banker, and was operated as a fishing steamer which ran almost daily to the fishing banks.

DRIVEN OUT BY FIRE.

Sleeping Crew of Tank Steamer Has Narrow Escape.

Marcus Hook, Pa., July 24.—Fire at the plant of the Union Petroleum company here early today destroyed the warehouse barrel factory, tin factory, several oil tanks and part of the wharf of the company and almost completely wrecked the British tank steamer Trinidadian. Several freight cars were also

RAIL OFFICIALS ARE NOW CALLED

Evidence Directly Contradicts That Offered by Engineers.

IN WAGE DIFFERENCE

New York, July 24.—Representatives of eastern railroads began today the calling of vice presidents and other officials as witnesses before the arbitration committee at Manhattan Beach, in support of the claim of the railroads that present conditions do not warrant the advance in wages asked for by the engineers.

Two days had been consumed in presenting satistical tables showing the increased cost of operation of the fifty-two railroads involved and it was announced that the remainder of the week will be required to hear the testimony of railroad officials and for each side to sum up.

Officials in charge of the operation of electric trains on the New York Central, Pennsylvania and New York and New Haven railroads, testified that steam engineers can qualify for electric service in three days' time. They said that the work of operating electric locomotives or multiple-unit trains is less hazardous than on steam locomotives and the physical labor is much easier. Their testimony was in direct contradiction of that offered by the locomotive engineers.

HAY-PAUNCEFOTE TREATY VOIDABLE

Ceding of Canal Zone Made It So, Contends Hannis Taylor.

HE POINTS A WAY OUT

Washington, July 24.—Hannis Taylor, former minister to Spain, and a writer on international law, published an open letter here today contending that the Hay-Pauncefote treaty is voidable because of the situation arising out of Panama's ceding of the canal zone to the United tSates.

"There is no room for hair-splitting on that point," writes Mr. Taylor. "Within the canal zone the United States is sovereign for all the purposes of international law. Under that law it is well settled that a treaty is made voidable not void, whenever a change has taken place in the fundamental con-

Mr. Mondell Enlightens the House With Inside History.

Washington, July 24.—Specific denial of the claims of the Roosevelt managers that their candidate had been improperly deprived of delegates in the Chicago convention in the contested cases brought either before the national or credentials committees was made in a speech delivered in the house today by Representative Mondell, of Wyoming, who was a member of the credentials committee.

He characterized the contests as "mere

FACING CHARGES OF MANSLAUGHTER

Two Trainmen Blamed by Coroner's Jury for Corning Wreck.

WHERE 40 LOST LIFE

Corning, N. Y., July 24.—In a verdict today the coroner's jury hold Engineer William Schroeder and Flagman Edward Lane responsible for the wreck on the Delaware, Lackawanna & Western railroad, near here, July 4. Warrants charging them with manslaughter in the second degree were issued by Coroner Smith.

Forty persons lost their lives as a result of the wreck and many others were injured. The freight train had broken down through the pulling of the drawhead and the passenger train, which had come up in the rear, was attempting to push the freight on to a siding, when Engineer Schroeder's heavy express carrying 1 min, also westbound from New York, came up and ploughed into the rear cars of the passenger. Three jurors dissented from the verdict, which followed a prolonged inquest. The jury was out all night.

Roosevelt's Oyster Bay Neighbors Adopt the Nickname.

T. R. APPROVES IT

Oyster Bay, N. Y., July 24.—Soon after sunup today, Colonel Roosevelt was up and hard at work in his library, attending to subjects which required immediate attention, so he might "have a day off." After an early breakfast, he and Mrs. Roosevelt disappeared, trudging down the hill toward Cold Springs harbor.

Colonel Roosevelt has obtained a copy of the full report of the Stanley investigating committee and expects to make reference to it in his speech on August 5 before the delegates to the Chicago convention. His speech was virtually completed, but Colonel Roosevelt saw

STILL TO STRIVE FOR NAVAL POWER

No Cessation of Struggle Between England and Germany.

AS FRANCE SEES IT

Paris, July 24.—That the world is not yet on the eve of the cessation of the struggle between Great Britain and Germany for naval supremacy is the prevalent opinion in France after careful study of the recent speech by Winston Spencer Churchill in the house of commons. The continuation of the rivalry between these two countries, causes a note of regret here; but there is an inclination to believe that if it must go on France should learn a lesson from England's procedure and herself increase her navy.

The Matin, commenting on the subject, says it is in a position to declare that Italy and Austria at the instigation of Germany, are about to build additional super-dreadnoughts in regard to which nothing has been permitted to transpire. Italy is to construct six of these vessels each of 23,000 tons displacement and capable of steaming at a speed of 25 knots, while Austria is to build three, each of them displacing 26,000 tons. The newspaper continues:

"The fulfillment of this program will destroy the present naval equilibrium in the Mediterranean and give a big advantage to the triple alliance."

FLOOD TRAPS FORTY MINERS

Breaking of a Reservoir Dooms Workmen Near Uniontown, Pa.

SCANT HOPE FOR IMPRISONED MEN

Fourteen Already Dead and Loss of Life May Go Higher.

LEAKING RESERVOIR MENACES MANY TOWNS.

Uniontown, Pa., July 24.—The Cool Spring reservoir was reported to be leaking badly at 3 o'clock this afternoon and there is danger of its going out entirely. If the dam gives way the water will sweep down the mountain on the towns of Lemont, Youngstown, Mount Braddock and Dunbar. It is estimated that 20,000 persons reside in the four towns and the loss of life and destruction of property is feared will be great.

* * *

Uniontown, Pa., July 24.—Forty miners were caught in a flood at the Superba coal mines at Evans' station, three miles from this city, this afternoon. All are believed to have been drowned.

Torrents of water are entering the mine in two places. Water is rushing down the mountain and it is believed the Cool Spring reservoir, the largest in Fayette county, located in the mountain, has broken. The Pennsylvania railroad, the Baltimore and Ohio railroad and the West Penn trolley tracks have been washed away.

Little hope is entertained for the town

VALPARAISO MAN IS 112 YEARS OLD TODAY.

Valparaiso, Ind., July 24.—Edward McCloskey, possibly the oldest man in Indiana, is observing his 112th birthday anniversary today in this city. Despite the infirmities of age, he is in remarkably good health and is never without his pipe of tobacco. Mr. McCloskey was born in Donegal, Ireland, and came here when 25 years old. He was married to Miss Mary Brady in 1887, when she was 54 years old.

SENATE TACKS ON $6,000,000

Sundry Service Appropriation Measure Passes Upper Body.

DIFFERENCES TO GO TO CONFERENCE

Vote on the Democratic Wool Tariff Bill Tomorrow.

Washington, July 24.—The sundry service appropriation carrying approximately $116,000,000, for the support of various bureaus and branches of the government, passed the senate today. It contains increases of about $6,000,000 over the appropriation authorized by the house. The differences between the two bodies will be adjusted in conference.

The more important additions in the senate include $223,000 for the tariff board; $350,000 for collecting the customs revenues; $400,000 for the prevention of epidemics and emergency work against the bubonic plague; $850,000 for the public lands service, and $257,000 for national park improvements. The bill is nearly $35,000,000 less than the estimates submitted to congress, and $26,000,000 less than the same bill last year.

Substitute Wool Bill.

A substitute for the democratic wool tariff bill was presented to the senate today by Mr. Cummins, of Iowa. It would generally reduce the rates of the present law, but would not so far as the bill framed by the house.

A vote on the democratic bill will be taken in the senate before adjournment tomorrow.

Nearing a Conclusion.

BEST REGULARS IN SHAM BATTLE

Indiana Guardsmen Victors in Mimic Warfare at Camp.

WAS THE LAST EVENT

Indianapolis, July 24.—In the face of a heavy fire, which in a real battle would have been almost annihilating, the Indiana national guard men defeated the regulars of the Twenty-third United States infantry in the war game today at Fort Benjamin Harrison. It was the final maneuver of the ten-day instruction camp for the guardsmen and this afternoon the citizen soldiers began departing for their homes.

The regulars, consisting of two battalions of the Twenty-third under Lieut. Col. Pendleton, were to defend a bridge over Fall creek, which the three regiments of the Indiana national guard under Col. Harry B. Smith had orders to destroy. The bridge has been the scene of many a hard fought mimic battle and again today was declared "destroyed."

Two guardsmen were injured and one was overcome by heat during the battle.

MEMORIAL TO REV. WALTHER

Will Be Erected at St. Louis by National Walther League.

MILWAUKEE MAN AGAIN PRESIDENT

Election of Officers is Feature of Convention Session Today.

The Walther league, in national convention at Emmaus hall, at its sessions this forenoon, adopted a resolution to erect at the Concordia seminary, in St. Louis, Mo., a memorial tablet to Dr. C. F. W. Walther, the founder of the Missouri synod, in whose honor the league was named. The resolution was passed by an unanimous vote.

The election of officers of the league, postponed from Tuesday afternoon, was made one of the matters of business early in the session this forenoon and resulted as follows:

President—E. A. Ehlert, Milwaukee, Wis.

Recording Secretary—E. A. Grossman, Milwaukee, Wis.

Temporary English Secretary—Victor Walther, Denver, Col.

Corresponding Secretary—Carl Rehm, Logansport, Ind.

Treasurer—A. W. Busse, Buffalo, N. Y.

National Field Secretary—Prof. F. A. Klein, Fort Wayne.

Committee Chairmen—Hospice, H. G. Pfeiffer, Fort Wayne; entertainment, O. Siemon, Laporte, and Robert Wolf, Fort Wayne.

Mr. Ehlert has served as president of the league for the last two years. Prof. Klein, who was re-elected national field secretary, has held that position for several years. Most of the other officers chosen are re-elections. The election was held by ballot.

WISCONSIN CITY IS HIT BY FLOOD

Two Dams in River Above Wausau Break; Heavy Damage Ensues.

MAY REACH $500,000

Wausau, Wis., July 24.—Flood damage, estimated at half a million dollars, was wrought today from the breaking of two dams on the Wisconsin river north of Wausau.

Three bridges in the vicinity have been washed out and a fourth has been partly destroyed.

All electric power, including street car service, has been put out of commission.

The dams which were swept away are known as Tomahawk-Brokaw structures. The flood made inroads on the waterworks plant and cut off the city's supply.

A large volume of water swept down the river front, covering the streets of Wausau near the river, surrounding the city hall, and business is demoralized. No loss of life has yet been reported.

The water is several feet above normal, but is receding.

At noon the flood damage is estimated from $100,000 to $500,000.

Coroner Kruse Has a Case

CORONER KRUSE had a case the other evening which puzzled him as much as anything that has come under his official notice for some time. And just as he was about to render a decision, the "corpse" came to life. The "corpse" was the doctor's automobile.

It appears that the doctor and Will Kayser started for a spin to Robison park to spend the evening. The other seats of the automobile weren't vacant, but contained two very good-natured specimens of feminity who anticipated a delightful evening. And they had it, too, even if the doctor and Mr. Kayser didn't.

When they were out about five miles from the city one of the tires blew out with a report that put out the lights in a near-by farm house. A description of the next two hours would prove monotonous reading, but its salient features seem to consist of the picture of two young ladies seated on a rail fence, giving instructions and making side-remarks to two very greatly dust-covered and perspiring amateur auto repairers. The coroner declared the thing was dead, and gave as the cause of the demise too great pressure on the region of least resistance, resulting in tire-itis with a combination of blowoutitis. But Mr. Kayser thought otherwise. The two, then, through their united efforts, finally succeeded in getting the machine so it could limp back to town. And do you know, those girls say they believe they had a better time than they would have had if the original plans had carried. And that's another thing that puzzles the doctor.

Seated on a Rail Fence.

Orphan Girls From Fort Wayne Spent Day in That City.

Last week the girls of the St. Vincent's orphan asylum of this city enjoyed a day at Lafayette, visiting the orphan asylum in that city. Speaking of their visit the Lafayette Courier says:

"The members of the Fort Wayne orphan asylum for girls were the guests of the St. Joseph orphan asylum of this city. The asylum at Fort Wayne is for girls only and the one here is for boys only. They are both Catholic institutions and are in the Fort Wayne diocese. The object of the trip was to give the girls an outing and a chance to visit with the orphans in the local institution. The day was spent in an enjoyable manner by the children. The trip was made in a special car from Fort Wayne, a number of sisters accompanying the girls. Dinner was served for the children at noon and games were played in the afternoon. The visit was in the nature of a picnic, the local asylum grounds being an ideal place for an outing."

ST. ANDREW'S SOCIETY

Affiliated With the Federation of German Catholic Societies.

At a meeting held Sunday of the committee of the District Federation of the German Catholic societies the St. Aloysius society of the St. Andrew's church was received into the federation. This is a district branch of the St. Joseph Staats organization and Adam A. Reinhart has been instrumental in its organization. The other affiliated societies are the St. Charles and St. Andrew's of St. Mary's church and the St. Martinus and St. Stephen's of the St. Peter's church. The committee in charge of organizing the district is composed of Adam A. Reinhart, president; Chas. Sebellhammer, secretary, and George Haffner, Jacob Koehl and Charles Hilker.

The committee met Sunday at the parsonage of the St. Andrew's church with Rev. George Horstman, the pastor, and was escorted to the hall where the society held the regular monthly meeting. Father Horstman addressed the young men and explained the object of the committee's visit. He urged them to act favorably on the request of the committee. Mr. Reinhart was then introduced, who explained the object of the district association and the workers of the Central Verein and federation of Catholic societies. At the conclusion of Mr. Reinhart's remarks the society voted unanimously in favor of becoming affiliated with the district federation.

Next Sunday the committee will visit St. Paul's church and induce the young men's society to join the federation.

Popular Sacred Song.

The new composition entitled "The 100th Psalm," set to music by Prof. H. M. Hahn, the organist at the Emmaus Lutheran church, mention of which was made several days ago in The Sentinel, has just been published. It is the third of Prof. Hahn's creations to be published, his other two printed efforts being "Christ and the Gardener" and "The 23rd Psalm." Like his other productions, the 100th Psalm has met with decided success.

ACCURATE DOCTORS HIGURES AGREE

Mr. Joseph Justice, a Chicago business man, 400 W. Randolph street, was declared by two physicians to have Diabetes. One of the physicians was his family doctor and the other was an M. D. in the Columbus building. To make doubly sure he had two analysis made and to show how accurate the physicians were, both reports showed four-sixteenth of one per cent. of sugar.

Justice put himself on Fulton's Diabetic Compound and cut out sugars, sweets and starches. He began to feel better after the third week. Improvement was continuous and on the disappearance of the symptoms he went to a third physician, an eminent Chicago specialist.

The doctor's charge was $20.00 for 25 minutes, but he writes that the examination was worth ten times what he paid for it. The doctor reported him strong and healthy and his analysis disclosed no trace of either sugar or albumen.

Mr. Justice knew that the careful test before and after made this a record case and that we would therefore be interested and he kindly gave us the above details.

Fulton's Diabetic Compound can be had at the D. & N. Pharmacy. Ask for pamphlet.

THE REASONS

GERMAN AMERICAN NATIONAL BANK

THE GREAT SUCCESS OF THIS BANK HAS BEEN DUE

1st. To the fact that the stock of the bank is widely distributed among 250 of our leading business men, professional men and farmers.

2nd. To the fact that it has a board of directors made up of 21 of the best known, active, successful Fort Wayne citizens. These take a personal interest in the bank, actively direct its affairs, and are proud of the record it has made.

3rd. To the fact that the officers regard their positions as places of public trust and do not run the bank in their own interest and for their own profit.

THE STORE THAT DOES THINGS

DIXON DOESN'T WANT THE PLACE

Favors Flinn for Chairman of Roosevelt's New Party.

WHAT BRISTOW SAYS

Washington, July 22.—Senator Joseph M. Dixon, who was Col. Roosevelt's pre-convention campaign manager, has asked to be relieved from the onerous duties of chairman of the national committee of the third party, which is to be launched in Chicago next month.

"I am being urged to become the first national chairman of the new party," said Senator Dixon, "and it is hard to resist such appeals as are being made, but I can not make up my mind to accept. I am strongly in favor of William Flinn, of Pittsburg, for national chairman, and I hope the matter will be settled by electing him."

Senator Dixon, though a young and vigorous man, is almost worn out physically by the heavy strain of his part in the Roosevelt candidacy. His appearance indicates his run-down condition. The talk among his closest friends is that he can not be prevailed upon to take the national chairmanship.

Senator Bristow, of Kansas, is making an interesting prediction.

Not an Elector.

"I predict," said he, "that President Taft will not get a single vote in the electoral college. There is only one state, in my opinion, that he has a ghost of a show of carrying and that is Rhode Island. It has four electoral votes, but I am not ready as yet to believe that he can even carry "Little Rhody."

The relations between President Taft and Col. Roosevelt have not yet been strained to a point where the president is willing to turn his predecessor's picture to the wall.

This fact was discovered by a party of three Indianians the other day, who called on the president to ask him to be sure to keep his engagement to speak in Terre Haute in September.

In the party were former Representative Jams E. Watson, of Rushville, Jacob R. Finkelstein, of Terre Haute, and Thomas H. Adams, of Vincennes.

Used to Know Him.

Observing a large and life-like picture of Col. Roosevelt on the wall of the president's workroom, Finkelstein, who is an ardent Taft man, remarked:

"Mr. President, if I were you I would take down that picture."

"That," said the president, rather sorrowfully, "is the picture of the Col. Roosevelt I used to know," and he turned the conversation into other channels.

The suggestion made by the Terre Haute man, while original with himself, was not new to the president. The same suggestion is made nearly every day, but the president refuses to act on it. During all of the stress of the hot fight between the president and Col. Roosevelt prior to the Chicago convention, and since, the president has retained his predecessor's picture in exactly the place it occupied when they were addressing each other as "My dear Will" and "My dear Theodore."

Turn to Grape Juice.

Grape juice—non-intoxicating grape juice—is having a great run with the Indiana delegation this hot weather. Who started the grape juice habit is not known, but it has taken strong hold on the Indiana members. When a Hoosier solon feels that the hot weather is getting the best of him he retires to his committee room and tanks up on grape juice, with the result that he soon feels better.

Those who have fallen into the grape juice habit declare that the juice of the grape is the ne plus ultra of summer beverages. Representative George W. Rauch buys grape juice by the case and finds that it goes a long way toward bolstering him up when the torrid sun tries to play horse with him and paralyze his activities. There have been times during the last few weeks when if it had not been for this harmless stimulant he probably would have taken the count. Representative Lincoln Dixon, dean of the Indiana delegation, also is a strong advocate of grape juice and keeps a generous supply on hand for ready relief.

Harry Evans, floor manager at the Rurode Dry Goods store, has gone to New York on a business and pleasure trip.

YOUNG ROUMANIANS IN NATIVE COSTUME FOR THE FOLK DANCES AT THE CELEBRATION IN FORT WAYNE SUNDAY.

—Photo by Standish.

HAD PARADE IN NATIVE STYLE

Roumanians in Their Own Colors March Through City Streets.

A BIG DAY FOR THEM

Sunday, July 2, was probably the biggest day in the local history of the Roumanians of Fort Wayne. The dedication of the new clubhouse of the Sentinela-Romania in Westfield, the rolling mills district, was the occasion for a large gathering of visiting Roumanians of note from other parts of the country.

One of the most interesting features of the day as far as Fort Wayne is concerned was the parade over the main downtown streets during the afternoon of all those attending the gathering. Following the band was a troup of twenty young men on horseback, all bedecked in the Roumanian national colors in the nature of neckties, sashes and badges, wearing white caps with artificial roses and red, yellow and blue ribbons; white sandals and stockings, laced in carmine braid; a band of bells about each knee, and shirts and trousers that were more or less abbreviated.

Large Outside Attendance.

The local Roumanians were more than pleased with the large number of outside visitors present for their dedication. Rev. Elie Popp, of Youngstown, O., pastor of the Greek Orthodox Roumanian church, was the guest of honor during the day. Rev. Popp was the principal speaker at the sumptuous banquet served in the new hall during the evening, and others called upon were D. Jiticaru and Emil Rad, of Indianapolis; Nick Clum, president of the Gary branch of the Sentinela-Romania; Nick Andre, president of the Roumania Young Men's society, of Indiana Harbor, and Christ Tiadia, of Fort Wayne. During the banquet a subscription envelope was passed and something like $500 was raised for the purchasing of furniture for the new hall.

The day was concluded with a merry dance during which all the various styles, both native and American, were executed.

SCOTT SPURNED CASH OF TRUSTS

None of Them Gave to the Roosevelt Campaign, He Asserts.

HIS GIFT LARGEST

Washington, July 22.—Former Senator Nathan B. Scott, of West Virginia, today told the senate committee investigating campaign funds of 1904 and 1908, that no contributions were made to Colonel Roosevelt's campaign by corporations, by Henry Havemeyer, the sugar king, or any representatives of the International Harvester company, so far as he could recall. Mr. Scott testified that the largest contribution of which he had knowledge made to the national committee in that campaign, was his own, amounting to $30,000 or $40,000.

George Perkins, he said, had given $15,000, but not to the national committee. Both contributions were used in the West Virginia state campaign.

"In October, 1904," Mr. Scott said, "Mr. Perkins asked me about the situation in West Virginia and I told him we had a very hard fight on for governor and that it was doubtful whether we could elect William O. Dawson. Mr. Perkins said, as a friend of Mr. Roosevelt, he would be very sorry to see the state go democratic and made the contribution."

Mr. Scott said that none of the "harvester people" had contributed to the 1904 campaign.

"How about the Perkins contribution?" asked Senator Clapp.

"Well, I understood that Mr. Perkins' contribution was a personal matter of his own," said Mr. Scott, "because of the personal relations that existed between him and President Roosevelt."

"Was Mr. Perkins at that time a member of J. P. Morgan & Co.?" asked Senator Jones.

Mr. Scott did not know.

"Do you know whether Mr. Perkins interceded with the president as to the taking over of the Tennessee Coal and Iron company?" asked Senator Paynter.

"I don't know anything about that matter."

Mr. Scott said he knew of no one "with the steel, oil or beef trusts" who had given anything.

It had been the settled policy of George B. Cortelyou and Cornelius Bliss, as the heads of the committee, to make it known that no such contributions would be received, he said.

"My own corporation never gave a dollar to the campaign," he added.

Mr. Scott was then a glass manufacturer.

Asked about any activities of the American Protective Tariff league in the campaign, he said the league had furnished some campaign material, but it had been paid in cash for its work and had never contributed directly or indirectly to the campaign.

George R. Sheldon, treasurer of the national committee in 1908, is to testify Thursday. It is expected the books of the republican committee for that campaign will be submitted to the committee this week.

S. Bash & Co. today received two carloads of fancy Elberta Peaches. They are selling at lowest prices of season. Call or wire them for prices at their expense.

A ROSE-TRIMMED HAT FOR ROSE

This charming hat for a young girl is both smart and dainty, and is well suited to its youthful wearer. The shape, a deeply sloping mushroom effect, with crown and brim blending into one, is faced with dark velvet, and the trimming of moss rose seems to emanate from the center of the crown where there is a big crisp bow of pink flowered Dresden ribbon. The brim is divided at the back and there is an opening which shows the young Miss's wavy hair.

Many mothers wait until rather late to buy their children's hats for many reasons, one of which is that they can buy a hat much cheaper than in the spring, and besides the little maid's best hat is not so liable to get caught out in the rain. A hat of the kind pictured would be all right to wear for first hat next season.

After Supper Talks With Cynthia Gray.

A FORGOTTEN DUTY.

One of a woman's duties is to give to her children a well-informed, well balanced, well-groomed mother.

She who "gives up" all the pleasures and advantages of life to her daughters is depriving them of the kind of mother whom they have a right to possess.

The woman who forgets self, loses her identity, neglects her appearance and sits in a corner when company comes is paving the way to a loss of companionship and respect, between child and parent, which the so-called advantage she denies herself to give can never replace.

At first thought the argument seems twisted. A little consideration will show it in its real light.

The self-sacrifice which bids a mother make over last year's dress that the girl may wear the latest fashion deprives a daughter of a proper pride in a well-dressed mother, and loses for that mother the self-respect and poise of manner which every woman feels in the possession of comely raiment.

The too-kindly woman who stays at home trying to weave new fabric from the lifeless, threadbare thoughts of yesterday while her daughter takes in the season's concerts and lectures and fraternizes with the world, is putting another pin in her wreath of unpopularity, and climbing another step to her place on the shelf.

The young should have their opportunities. But they should not be secured to the exclusion of those who are intended to guide and guard them.

The ideal parent must keep himself or herself in touch with the world.

A companionable mother, who can reason and sympathize and advise with her child from the standpoint and in the knowledge of today is the greatest boon of a growing daughter.

A mother who looks well, thinks well and acts well is an inspiration and an example. Too many girls think that when they have succeeded in marrying, their efforts to look nice or to learn more are at an end. Who knows but that the mothers before them instilled the notion?

Sharing the advantages; keeping step in thought; seeing and hearing the same things, in part, at least, mean the cementation of an understanding and a similarity of thought which are the only true means of perfect harmony between the mother, who is growing older, and the daughter, who is growing up.

THANKED NEWSBOYS.

Assistant Fire Chief Jasper and Mayor Grice Visit Their City.

This morning Mayor Grice and Assistant Fire Chief G. W. Jasper visited the Newsboys' City, the latter making the trip in the chief's carriage for the purpose of thanking the boys for the assistance they gave in saving from destruction the farm barn of Jacob Yaste which was struck by lightning on the first evening the boys were in camp. The visitors inspected the camp and were enthusiastic over what they saw.

General Secretary W. S. Whitbeck, of the Y. M. C. A., went to Lake Geneva, Wis., Saturday to attend a national meeting of the association being held there, which is in session until Wednesday of this week.

MYSTERY OF THE FAMOUS PICTURE

"Shadow of the Cross" is Puzzling to All Who Gaze Upon It.

IT IS UNSOLVABLE

"The Shadow of the Cross," a painting which has excited the consternation of all who have seen it, and which is one of the most discussed paintings of the Christ which was ever put on canvas, has been secured by the Knights of Columbus for a two weeks' display, the proceeds going to the St. Vincent Orphans' home, was yesterday installed in the vacant store, 823 Calhoun street, where hundreds viewed the marvellous creation of the painter's art. Critics have declared their admiration of its merits, sermons have been preached about it, and the public and press concede it to be one of the most extraordinary creations ever exhibited.

"The Shadow of the Cross" was painted by Henry Hammond Ahl, who studied painting in the art centers of the old world for many years, devoting his talents mainly to general subjects. He returned to America in 1896, and established a studio in a New England city, where, for sometime, he painted principally portraits and landscapes. The story of how he came to paint the picture, and of its strange powers, which even the artist cannot explain, is most interesting. The cross which appears to the eyes of the beholder, but which may not be seen at first glance, but gradually appears, and is not luminous, as though the reflection of a real light, is the inexplicable part of this wonderful painting. The artist was so impressed with the phenomenon of the cross when he first beheld it, that he refused to finish the painting. Another strange feature of the painting is that the shadow of the cross which Christ seems to bear upon his shoulders, as he walks in the moonlight, is not visible to any two persons at the same time, but appears at odd intervals to those who are within the inclosure for the purpose of observation.

SCIENTISTS NAME SEVEN WONDERS

Wireless Telegraphy Leads List Selected in Magazine Contest.

Bloomington, Ind., July 22.—Dr. O. W. Brown of the science faculty of Indiana university was one among a number of leading scientists of this country selected by the American academy of sciences of Washington, D. C., to ballot in an international contest to determine the seven wonders of the modern world. Dr. Brown named five of the list finally chosen. The contest was participated in by 1,000 scientists of all countries of the globe and was conducted by a scientific magazine published at Chicago. The seven wonders of the modern world selected are as follows: Wireless telegraphy, telephone, aeroplane, radium, antiseptics and antitoxins, spectrum analysis and X-ray. It will be noted that all are the result of discoveries of the mind and not the development of muscle force, as were the seven wonders of the ancient world.

REAPING A RICH HARVEST BY MAIL

Swindlers Gull Public for $120,000,000 a Year, Says Report.

SUCKER CROP IS BIG

Washington, D. C., July 22.—According to the old adage that a "sucker is born every minute," 525,600 of them come to this earth during each year.

Each of the crop which ripened to the plucking stage netted a profit to the swindlers of $228.30 this season. At least that was their per capita loss, as the statement of Postmaster General Hitchcock, made public today, shows that the American people were filched of $120,000,000 during the fiscal year. This is an increase of $50,000,000 over the aggregate of last year.

The number of those who reaped the profits of the crop is not known, but 1,063 of them were caught while gathering the harvest. During the year, which ended June 30 last, 452 of these harvesters were convicted and sentenced. The cases of 571 others who are alleged to have been caught while making away with the goods are awaiting final disposition.

Neither the suckers nor their despoilers come from any one walk of life. According to Mr. Hitchcock's report those engaged in the harvesting included merchants and mechanics, politicians and professional men, paupers and millionaires. They exploited all sorts of schemes, but their chief means of work were bogus mines, fake remedies and worthless lands.

The swindlers now face lean and hungry years, however, as the recent orders to postoffice inspectors will make their business both less profitable and more perilous to them.

Postmaster General Hitchcock's order to collect evidence that would warrant criminal prosecution of the swindlers gradually is building a wall of protection around the suckers. Before that the the punishment was only a fraud order forbidding the delivery of mail to such operators, who worried but little. They merely changed their names, addresses, and title of their "businesses," continuing their operations until another fraud order caught up with them.

HOMEY HINTS

Flour Cleans.

A little flour well rubbed into the bristles of hair brushes is an excellent cleansing medium, the brush afterwards being well rubbed and shaken over a piece of clean white paper placed over the edge of a table or rail.

Picture Glass.

Don't wash picture glass. To remove spots rub them with a damp cloth wrung out in water to which a little ammonia has been added. Take special care that no water runs under the frame and so on to the picture.

Preserve Lemon.

Stand lemon on a flat surface. Turn a tumbler over it, and it will keep for weeks provided the tumbler is not removed.

Oatmeal Beautifies.

Keep a dish of oatmeal on the toilet stand and rub it freely on the hands after each washing. This dries and softens the skin, preventing it from becoming red and rough when exposed to the air.

L. J. Gengler, of Garrett, a well known attorney of DeKalb county, was in the city Sunday visiting his daughter, Mrs. Mary Clark.

DON'T "DRESS UP" BABY IN SUMMER

Remember That Mother's Pride is Often Very Hard on Little Folks When It's Hot.

"ALL READY TO GO BYE-BYE."

(By Idah McGlone Gibson.)

Don't "dress up" your baby if you take it out for a ride.

Many mothers would find time to take their babies outdoors if they did not think it was necessary to fuss them all up in scratchy, starchy clothes. The best warm weather garment for a baby is made of very light weight outing flannel, which grows softer with every washing. Make up a dozen of these with no trimming and put one on clean every night and morning. You will find that the laundering of these little slips is much less trouble than where more clothes are used and not changed so often.

Never use a diaper after it is once wet. Wash and dry thoroughly. The practice of drying it before washing, and using it again has been known to chafe and poison the delicate flesh until a bad case of eczema is the result.

Don't put too heavy a diaper on the baby, as much cloth between its legs may easily cause it to become bow-legged.

If you have a cool place outdoors put your baby to sleep in its cab with a piece of mosquito netting over it. Every minute your baby stays outdoors in the shade is helping it to live through the heat of summer in comfort.

Be sure that the pad under the baby is perfectly clean, as is everything about her, and you will find that she wakes and greets you with a smile when you say: "Come, let's go bye-bye."

FRAME A PUBLIC UTILITIES BILL

Proposed New Law Gives Rail Commission Added Power.

MARION MAN SPONSOR

Indianapolis, Ind., July 24.—After a conference in the offices of the Railroad Commission of Indiana yesterday, State Senator Bernard B. Shively, of Marion, announced that the general provisions of a public utilities bill being drafted by the senator and several others, practically have been completed. The bill will provide for the granting of additional powers to the railroad commission and will be introduced by Senator Shively in the 1913 general assembly.

Chairman W. J. Wood, of the commission, Senator Shively and Z. V. Zartman, secretary of the Manufacturers' and Shippers' association, took part in the conference, but none of them would discuss the provisions of the measure in detail at the close of the meeting.

It is understood, however, that the bill will seek to give the railroad commission specific control of all public utilities in Indiana. Regulation of the administration of municipal utilities and privately owned organizations will be aimed at by the new proposed act, it is asserted.

Gives Commission Power.

Mr. Zartman, discussing the bill, said: "It is our intention to seek to give the railroad commission additional powers, which will insure the proper regulation of all public utilities in Indiana, but which will not allow discriminations of any character to creep into the system. The state long has needed such a law and I believe that the majority of the organizations in the state will get behind it and boost it.

"Senator Shively may introduce the bill. At least he will find 'pushers' for it. Other states have come into line on the proposition of public utilities regulation and I think the majority of Indianians now believe it is time to enter such a statute on the Indiana books."

Governor Marshall already has declared for such a bill, but the democrats of the state, in their state platform, side-stepped the question.

The proposed law will not provide for the enlargement of the membership of the railroad commission, it is said, but will seek to give the commission power to hire additional assistants to carry out the provisions.

Mr. Zartman said he is not sure what organizations in the state will fall into line behind the bill, and others at the conference yesterday said they were not even certain that the Manufacturers' and Shippers' association would receive the bill favorably. That such a bill will be introduced in the legislature, however, appears to be a certainty.

Will Be Shown to Governor.

Senator Shively, discussing the proposed law, said:

"I have been at work for more than a month drafting a public utilities bill, which I believe will meet with the approval of practically all of the citizens of the state. I can not say anything definitely about the detailed provisions of the bill now, but I can assure you that the bill is to provide merely for the hiring of additional employes in the railroad commission, and not for the enlargement of the personnel of the commission itself."

Senator Shively has appeared before several organizations of Indianians interested in such a law and has argued his proposition before the Municipal league. Governor Marshall has not yet been consulted as to the efficacy of the Shively bill, but it is believed that a tentative copy of the proposed law will be laid before him as soon as he returns from his vacation.

SAYS THEY WILL TURN TO WILSON

Michigan Governor Sees No Reason for Roosevelt in Fight.

USELESS, HE SAYS

Lansing, Mich., July 24.—Governor Osborn yesterday said there is no reason why the so-called "militant progressives" should not organize if they so desire, but he believes that 80 per cent of the voters of the republican party in his state are progressive and he believes that 60 per cent of the 80 per cent will remain in the republican ranks.

He said in part:

"I do not wish to impose my opinion as dictum in reference to the organization of a new political party in Michigan. My position must be well known by this time. When Mr. Wilson was nominated at Baltimore I thought there was no longer a real public reason for the candidacy of Mr. Roosevelt, but this does not imply that he has not a right to be a candidate nor that his friends have not a right to urge him to become one and support him as such.

Not for New Party.

"I have not been in favor of a new political party and have not believed that the exigencies of the times demanded one. Likewise this is no reason why the so-called 'militant progressives' should not have organized if they cared to do so.

"I still believe that 80 per cent of the voting strength of the republican party in Michigan, and for that matter in the United States, is progressive, and I still believe that 60 per cent of that 80 per cent will remain within the republican organization, believing that their work within can be more effective than to endeavor to build a new organization.

No Cause for Worry.

"There is no cause for worry. This country is entitled to be governed by those most fit to govern. It may be concluded that those most fit to govern will govern.

"If the new party in Michigan and in this country succeeds in winning public place it will simply bring to itself great responsibility, and if it does not, the work it has undertaken and which must be done will have to be done by the republican and the democratic parties.

"The only difference I have with the new party is my belief that the work can be done by the republican party. As for the progressiveness of the new party, the character of it does not suit me much, if any, better than the republican party at the present time. The new party, in its fine state platform, says nothing about excessive alcoholism, that is sapping the vitals of the country and filling almshouses and insane asylums and divorce courts and all the dread places.

Discusses Railroads.

"It does not say anything about government ownership of railroads, which must come of a certainty within a little time, because the government cannot supervise and regulate in the extreme way it is doing without responsibility, and only full responsibility can come with government ownership.

"The Baltimore convention proved conclusively that the better influences of the democratic party predominate at the present time. If this be true, it is going to require keen competition on the part of the republican party and the new party to make such a showing as will prevent the people of the country from acknowledging the momentary superiority of the democratic party."

NEWSBOYS' CITY DAILY SENTINEL

MOTTO: "GOOD BOYS MAKE GOOD MEN."

VOL. 1. NO. 9. NEWSBOYS' CITY., IND., WEDNESDAY, JULY 24, 1912. SIMON MAIER, Editor.

LAST ISSUE OF THIS PAPER.

Newsboys' City Official Organ Will Cease Publication Till "Next Time."

With this issue of the Newsboys' City Daily Sentinel, the little publication will take a vacation until some other time—probably a year from now, at which the boys will doubtless find themselves invited to take another outing. Previous to going to the city, the boys met at the office of Mr. Phelps and selected Simon Maier as the editor of this official organ. That Simon wrote some very interesting things is admitted by all, as he was observant at all times and did not let the excitement of the camp call his attention away from his editorial duties. The Fort Wayne Sentinel thanks the boys for providing such an interesting feature during the existence of their city.

CITY CLOSES TODAY.

Tents and Supplies Will Be Packed and Brought to Town.

Tomorrow morning the Newsboys' City, the first of its kind in the world as far as its promoters know, will be but a memory, but it will be a delightful memory to the two score street newsboys who were given a free outing during the past two weeks. Many of the boys who were citizens of the Newsboys' City seldom have a chance to take a long breath in the country, and the experience was a decided novelty. In the case of some of them, the novelty was o great that they couldn't endure it. They became homesick for the bricks and the asphalt of down town. But most of them came back and remained to the end. It was a problem to keep on hand a sufficient food supply, but even this was met through the general interest of the Fort Wayne business men, and now that the thing is over it is known to have been a decided success, and one which is in keeping with the modern movement in the interest of the children of the city.

WHAT OF THE FUTURE?

Are the Newsboys to Have Another City —Up to the Citizens.

"I am quite sure," said Charley Phelps, as he viewed the long line of tents composing the Newsboys' City, "that if the boys have a city next year we must have a good deal more help than we had this year. The fact is that it turned out to be a bigger thing than I had planned, and it is too much for one or even a few to undertake. If we repeat the work next year, I think the matter should be taken in hand by an organization and the work should be parceled out to committees. One committee should look after the materials for establishing the camp, securing and locating the tents, cots, etc. Another committee should have in charge the securing and the preparation of the food. Another should look after the activities and the discipline of the camp. We have had hundreds of visitors, among them some of our leading business men, and everyone seems to think it was a good thing and that it must not be dropped. I am more than grateful to all who have helped either in a material way or by their commendatory words."

EXCITING CONTESTS.

Newsboys Make Good Records in Several Athletic Events.

Yesterday was "Olympic day" in Newsboys' City. The morning was devoted to some very interesting contests, which resulted as follows:

Two hundred yard dash—Clinton Baals.

Fifty yard dash—Clinton Baals, first; Simon Maier, second.

Hop, step and jump—Boyd Johnston, first; Earl Johnston, second.

Running long jump—Claud Christman, first; Otho Lawson, second.

Potato race—Edwin Flanniger, first; High Swatwood, second.

Small boys' race—Michael Zwelg, first; Rudolph Lum, second.

Fox and hounds—Felix Maier, won.

Boyd Johnston holds the season's record for hop, step and jump, 15½ feet. Claud Christman, one of the smallest boys in the camp, holds the record of the running long jump, 9½ feet.

NEED CROWDS NEXT 4 DAYS

Playgrounds Will Suffer If Show at Park is Not Patronized.

WORTH THE MONEY

About the only thing needed to make the Playgrounds benefit show, the Pain spectacle, "Last Days of Pompeii," a success big enough to net the Playgrounds association a comfortable sum, is the patronage of every Fort Wayne citizen between tonight and the end of the week.

The opening night of the show was not expected to be large, and the attendance and receipts on Tuesday evening were sadly interfered with by the circus. The Pain show is a circus all in itself, with the added advantages that only one thing is occurring at a time, and that each occurring thing is a headliner.

The fireworks display which follows the actual eruption of Vesuvius and the destruction of the town of Pompeii, is elaborate and beautiful. Some of the same features are shown each night, and also there are several varied features for each performance. The "Teddy in the Jungle" was shown again Tuesday evening, making a big hit with the audience. The "Niagara Falls" piece, which shows fire falling over a length of a hundred and fifty feet, is truly realistic. The other pretty pieces, such as the spinning wheels and the special skyrocket designs, are too numerous to mention.

Every one who has seen the special vaudeville acts which are given supposedly during the festival of the people of Pompeii say that the acts are all of the very best. The La Bick troupe of clowns is forced to work overtime, so enthusiastically are they received.

The general admission price to the show giving a seat in the bleachers is 50 cents, with the grandstand seats selling at 75 cents and the special box seats in the grand stand at $1.00. On each of the remaining nights of the week emblems of various orders of the city are to be displayed in fireworks, and Manager Cunliffe prepares the emblems in an expert manner.

The women of Paris outnumber the men by 200,000.

HERMIT PLANNED HIS OWN DEATH

Ceremony, Strange as Was Life of Recluse, is Carried Out.

QUEER LIFE IS ENDED

Crawfordsville, Ind., July 24.—Milton R. H. Kirkendall, better known as the "Hermit of Indian creek," died at the Vandalia station at Brown's valley, Saturday. Kirkendall lived in a hermitage near Waveland, and was on his way to that place when he was attacked by heart failure and died at the station.

The funeral services, which were held Monday afternoon, were unusually strange and portrayed the many eccentricities of the man, who has lived all alone for years near Waveland. Several years ago the hermit called on his old friend, Frank Kritz, the Waveland funeral director, and made known to him his wishes in regard to his funeral ceremonies. Every few months this action would be repeated and was continued until his unexpected death.

His wishes had also been written and placed in the hands of his trusted friend. According to these directions, no woman was to follow his body to the silent city of the dead. He directed that his body be not covered with an expensive suit of clothes, but be wrapped in a shroud; that it be conveyed to Freedom cemetery in no pretentious funeral car, but in a light spring wagon without a top of any kind, and an oak box for his body was to take the place of an expensive casket.

He specified that none but the undertaker and pall bearers be present when his body was consigned to its last resting place in "the most obscure part" of the graveyard on the hill. He requested that Mr. Kritz conduct the services. No minister nor member of any secret order should be in attendance to pray or preach and there was to be no song service. The only thing he desired was that "Thanatopsis" be read by the funeral director.

His wishes were all scrupulously adhered to. He provided in his instructions that John Wilder, of this place, be paid $25, and for this sum he is to obtain a favorite boulder of the deceased from the banks of Indian creek, convey it to the cemetery and place it at the head of the deceased.

An investigation is being made at the hermitage today by the friends and relatives of the recluse in order to find out whether he left any valuables, instructions or a will.

BISHOP WARREN DEAD.

Retired Methodist Churchman Yields to Pneumonia.

Denver, Col., July 24.—Bishop Henry W. Warren, of the Methodist Episcopal church, who was retired from active work by the general conference last May, died here last night. He was stricken with pneumonia a few days ago.

Immediate relatives and the bishop's physician were at the bedside at the time of death. The widow, who had been in constant attendance upon the noted divine since his illness, is prostrated and under a physicians care. Bishop Warren was 80 years old.

In 1911 $750,000 was raised in this country for Young Men's Christian associations for negroes.

FRIDAY DRAMA DAY AT WINONA

"Electra" and "Joseph" to Be Given at Great Resort.

EVENT IS NOTABLE

Winona Lake, July 24.—A big feature of the summer season will be "Drama day," to be given at Winona on Friday. The dramas for the day are the Greek tragedy, "Electra," from the pen of Sophocles, in the afternoon, and "Joseph," the most recent compilation by William Dodd Chenery, in the evening. Both have already been given before Winona audiences, and have proved their worth, as will be evidenced by the attendance on Friday. "Electra" was given for the first time away from the Wabash college campus on Monday evening, when the well known Wabash college players appeared in their Grecian roles and costumes in the auditorium. Even as maidens, and those who knew sorrow, they interpreted their roles with true artistic skill and won the commendation and applause of their audiences. In its elaborate costuming and stage settings, its musical background, beautiful score and its well trained cast of principals and chorus, the grand opera "Joseph" scored a phenomenal success. After its initial production on last Friday evening critics pronounced it the finest musical attraction ever given at Winona.

More than eighty delegates have enrolled at the third annual summer conference of the Young Friends of America, which is in an eight days' session at Kosciusko lodge. A helpful series of lectures by leading men of the Friends church, mission and other study classes, and delightful recreation hours about the beach, are making of the conference one of the most successful ever held. Four visitors of interest are John S. Hoyle, Harry T. Silcock, A. Barrat Brown and Corder Catchpool, of Birmingham, England, who are spending the summer in visiting the various conferences in the United States. They are prominent in the international movement for the organizations among the Young Friends, and are exchanging ideas at the conferences. Their daily talks are an inspiration to the American young people to join in the movement.

MUCH HINGES ON KING OF BABYLON

What He Did 4,500 Years Ago Now an Issue in Chicago Court.

SIGN WITH THUMB?

Chicago, July 24.—"Mabel," said the king of Babylon, seating himself at his desk some 4,500 years ago, "did you write those letters today?"

"I have chiseled them all, your majesty," replied the king's favorite stenog.

"Then bring them here to be signed."

The stenographer caused an attendant to haul the slabs of first-class mail matter before the king, and he——.

But right here comes a question that has become the liveliest kind of an issue in Judge Kersten's court. A man's liberty may hang on the action of this king who lived and ruled 2,600 years before Christ.

Thumb Proved Signature.

There is one contingent in court that insists the king used his thumb to make an imprint upon the face of the stone with some sort of dye, this imprint being his signature. The other side insists that the king had his stenographer hammer his initials into the tablets upon which he wrote his business letters, bills to his subjects, or whatever his daily correspondence may have consisted of.

Old King Menes' lost amulet is the cause of the present complication. Trial of John C. Hartzell before Judge Kersten, charges with the theft of the golden possession of the long dead king, was continued yesterday. All afternoon William A. Evans, finger print expert, sat in the witness chair testifying about a dusty finger print found upon the glass case at the Haskell museum from which the amulet was taken.

He produced a photograph of the print in duet and another taken from Hartzell's finger a short time before at Harrison street station.

"They are identically the same," he said in conclusion.

Asked About Chinese.

Then John F. Gesting, attorney for Hartzell, took up the questioning. He asked the expert about his education in the finger print business, just what his knowledge was and where he had got it.

"Don't you know that the Chinese used the finger print system years ago, long before it was brought to this country?" demanded the lawyer.

"Why, er, no I didn't," answered Evans.

"Then you don't know the truth about the finger print system," said the lawyer in what was intended as a crushing tone.

But Dr. James H. Breasted, hieroglyphic expert from the University of Chicago, says that the lawyer doesn't either.

"The ancient Babylonians used it 2,600 years before Christ," said he. "It was used in several ways. In addition to signing tablets with it the brick workers placed their thumb in the soft bricks to identify their work."

It is hoped by Hartzell's lawyers to so befog the finger print system that the jurors hearing the evidence in the case will decide it is too flimsy to convict a man on. Since there is practically no evidence against Hartzell, but the tell tale finger print in the dust of the University of Chicago show case the present argument concerning the Babylonian monarch is most important.

The local lodge of Buffaloes, at its meeting Tuesday night, initiated a large class of candidates.

NEW YORK TEAM WAS THE WINNER

Wins First Honors in Erie Fire Contest at Huntington.

LATTER CITY FOURTH

Huntington, Ind., July 24.—Hornell, New York, carried off first honors in yesterday's contest between the sixteen competing fire teams from along the line of the Erie railroad. The time made by the winning team was 73 1-5 seconds.

The rules under which the runs were made provided for a run of 300 feet, coupling to hydrant, throwing water and a return to the starting point. Briar Hill came second in 75 3-5 seconds, Buffalo third in 76 3-5, and Huntington fourth in 77 1-5.

The remainder of the companies all were above the 80 mark. The time made by the winning team this year did not equal the run made by Huntington in the 1911 event at Hornell. Huntington took first at that time in 60 seconds, but was unable to make a similar record at this time.

Carry Away Trophy.

The solid silver trumpet trophy was delivered to Hornell by the Huntington team, as was a silver loving cup presented by the Huntington Commercial club. Many of the business houses in Huntington also awarded the winners prizes of various kinds.

At 7:30 last night a triumphal victor's march was given through the city, and the winners were roundly applauded by the thousands of spectators who thronged the streets. A magnificent display of fireworks was given along the line of march.

At 8 o'clock fifty high Erie officials were seated as guests of the Huntington business men at a banquet given in their honor at the Huntington hotel. The Rev. Elmer Ward Cole presided as toastmaster and speeches were made by the visitors and the citizens in attendance. The city was crowded from early morning, every train bringing in hundreds of people attracted by the novel event. This is the first time the Erie officials have given any city west of Pennsylvania the honor of entertaining them as a body.

Milady's Toilet Table

By Mme. D'MILLE.

"A neglected complexion makes a woman look older than she is. The easiest way to preserve or restore a girlish complexion is to lightly massage face, neck and arms with a solution made by dissolving an original package of mayatone in a half-pint witch hazel. This prevents sunburn, tan and freckles, and keeps the skin soft, satiny and altogether lovely.

"Men always will admire beautiful hair. Washing the head leaves the hair dull and lifeless. Dry shampooing removes dust, dirt and dandruff and leaves the scalp clean, cool and refreshed. Mix four ounces of powdered orris root with an original package of therox; sprinkle a little on the head, brush thoroughly through the hair—and your shampoo is done—your hair light, beautifully lustrous and easy to do up.

"A simple way has been found to remove superfluous hair from the face or forearms. Make a paste by mixing powdered delatone and water and cover the hairy surface; leave it on one or two minutes, then remove and wash the skin.

"Short, thin eyelashes can be made to come in long, thick and silky if pyroxin is applied to the roots with thumb and forefinger, and brushing gives them a curl. The eyebrows can be made to grow in well formed arches by brushing with pyroxin."

GOT GLASS OF BEER BUT MISSED TRAIN

The "Misfortune" at Peru of a Man Enroute from the West to Fort Wayne.

Peru, Ind., July 24.—A stranger whose name was not learned caused Local Agent Moon considerable annoyance Tuesday morning when the latter refused to give him a free ticket to Fort Wayne.

The fellow was en route from the west to Fort Wayne on passenger train No. 28 and when the train reached Peru he noticed a beer sign. He got off to get a drink and when he got out of the saloon he found that the train was gone. It was then that he demanded a free ticket, stating that the train should have waited a half hour on him.

PATIENT WAS HOMESICK.

Ran Away from the Hospital and Returned to His Home.

Huntington, Ind., July 24.—Harl Steele, the Erie brakeman who had his left arm pinched off some time ago when caught between two cars and who has been a patient in the hospital at Rochester since the accident, ran away from that institution Monday and is now at home on High street, in this city. Mr. Steele had a week yet to remain at the Rochester hospital, but he became homesick and made a getaway.

When he reached the train at Rochester he had about collapsed, but managed to muster sufficient strength to board the train without assistance. On reaching his home he was much fatigued but happy to again be amid home surroundings.

CHARGE AGAINST RAILROADS.

Henderson. Fred Blake, of Terre ence Legislatures.

Pittsburg, July 24.—That the railroads raised rates to excursion resorts in an effort to bring influence to bear on the legislatures of Indiana, Ohio and Pennsylvania to have the two and one-half cents per mile rate restored for carrying passengers was alleged during a government rate investigation here yesterday. The attorney, N. S. Billingsley, for the complainants, in introducing letters which had passed between agents of the Pennsylvania railroad, stated that they were to show that concerted action had taken place between the various railroads for the purpose of bringing pressure to bear on the legislatures of Indiana, Ohio, Illinois and Pennsylvania to restore the old passenger rate of two and one-half cents per mile.

AUBURN RESIDENT DEAD.

Auburn, Ind., July 24.—Mrs. Henry Martin, who had been in ill health for several months, passed away at her home on Phillip street, Tuesday. She had been a sufferer from dropsy and asthma. She leaves a husband and two sons, Edward Martin, of Cleveland, and Cyrus Martin, also several grandchildren, three of whom resided with them. She was 69 years of age and was born in Auburn.

AUBURN TEACHER HONORED.

Auburn, Ind., July 24.—W. D. Miginis, of this city, has received notice of his appointment to the superintendency and associate professorship of education at the Winthrop college, located at Rock Hill, S. C. This is a state institution and is devoted to female teachers' training work.

A WOMAN'S WISDOM.

The worried mother wakes up to hear her baby's heavy breathing—a little cough—perhaps the croup or whooping cough. She does not want to send for the doctor when perhaps the trouble does not amount to much. Finally she thinks of that medical book her father gave her, The Common Sense Medical Adviser, by R. V. Pierce, M. D. She says "just the thing to find out what is the matter with the little dear." Two million households in this country own one—and it's to be had for only 31c. in stamps—1,000 pages in splendid cloth binding. A good family adviser in any emergency. It is for *either sex*. This is what many women write Dr. Pierce—in respect to his "Favorite Prescription," a remedy which has made thousands of melancholy and miserable women cheerful and happy, by curing the painful womanly diseases which undermine a woman's health and strength.

MRS. ZUBERT AND BABE.

"My desire is to write a few lines to let you know what your valuable medicine has done for me," writes Mrs. MARGARET ZUBERT, of 323 S. Bentalon Street, Baltimore, Md. "Before the storck came to our house I was a very sick woman. I wrote you for advice which was kindly given and which made me a different woman in a short time. After taking the first bottle of 'Favorite Prescription' I began improving so that I hardly knew I was in such a condition. I did my own housework—washing and ironing, cooking, sewing, and the worst of all nursed three children who had whooping cough. I hardly knew of the advent ten minutes before—so easy was it. The baby is as fat as a butter-ball. Dr. Pierce's Favorite Prescription is the best medicine for any woman to take when in this condition. I recommend it to all my friends."

Millions for Civic Beauty.

Standing out in strong contrast against the belief that $200,000 is much too large a sum for Fort Wayne to expend in the purchase of its river banks, and the proper beginning of systematic city beautification is the fact that Joseph Schaf, one of the most successful business men at Indianapolis, is urging that the sum of two millions of dollars be placed at the immediate disposal of the Indianapolis park board for the beautification of the city's parks and boulevards. Such a sum would, of course, be wholly out of the question in Fort Wayne, and even the most enthusiastic local advocate of civic beautification would not in his wildest dreams advocate an expenditure of anything like this magnitude here.

The instance is cited merely as showing the growing appreciation of the benefits of enhanced civic appearance, the trend of modern city building and the sort of work the city of today must do if it is to keep abreast of its competitors. Whether Indianapolis ever provides such a sum of money for this purpose or not is entirely aside from the value of the incident as indicating modern tendencies to be no longer satisfied with hap-hazard growth and utter neglect of civic possibilities that contribute harmony to the picture of a great and growing city. Let it be known, also, that Mr. Schaf understands the value of money, for he began his career at $5 a week. He is not a moneyless enthusiast who would have nothing to lose and who might be tempted to urge that the chance be taken for the sake of possible personal profit. We are told that expenditure of the scope he proposes would fall upon few Indianapolis pocketbooks more heavily than upon that of Mr. Schaf, yet he is urging it in a splendid public spirit that is to be commended despite the fact that his figures are staggering and perhaps overreach reason even in a matter so vital as civic beautification is coming to be.

Holding Up the Job.

Distressing news is wafted from Washington to further agonize the harrowed soul of the Indiana man who is cherishing daily hope that he may fall heir to federal appointment, large or small, from the present administration. To-wit: All the remaining Indiana appointments are to be pigeon-holed until after the election in November. Action to this end has been adopted by the president, it is said, chiefly upon the counsel of his Indiana advisers. They have placed before the president more or less complete diagrams, floor plans, perspectives and rear and front elevations of the political situation now existing among Indiana republicans, not omttting to mention, of course, the marked tendency in some quarters to flock to Colonel Roosevelt and his cohorts. They have told President Taft that haste in making appointments means that in making certain of the support of the fellows he appoints he is going to drive away those who fail to get the offices, and they outnumber the first crowd ten to one. With hope somewhat deferred but still hoping, none of the office-seekers will be willing to take a chance in losing out by lagging in their support of Mr. Taft at a time when he certainly needs 'em. In a small way this policy is as effective as the historic steam roller.

GIFFORD PINCHOT'S TAXES.

(Pittsburg Dispatch.)

This is a year in which the common occurrences of society are reversed. But no reversals are more stunning than those presented in the controversy over the tax assessments of the eminent Mr. Gifford Pinchot, in the District of Columbia.

We have not exact information as to the time when the expert in forestry acquired this property. But as there has been no intelligence of his investing in the unearned increment since he declared war with the Taft administration, we are led to the conclusion that he has held title for some years. Previous years did not disclose to him that there was anything wrong with his tax valuation. It was reserved for the present year of grace and progressive acrobatics to disclose to him that his property was badly undervalued for taxation. Whereupon he calls upon the assessors of the district to raise his valuation and increase his taxes, and lets the intelligence escape into Newspaper Row.

But this is fully matched by the Roman, aye even Spartan, impassiveness of the district assessor, who put the valuation on the Pinchot real estate. He coldly affirms that the valuation is correct, and declines to alter it. No person seeking notoriety by trying to pay more taxes shall muss up the orderly proceeding. Mr. Pinchot shall pay on what he was assessed, no more and no less, or the assessor will know the reason why.

This gives rise to a theory that the method is a new one to head off a threatened increase in valuation. No one is bold enough to suggest that it can secure a reduction of valuation, since that would flood assessors' offices with demands for increases. How these theories may turn out we do not undertake to say. But there is undoubtedly an interesting study in the synchronism between Mr. Pinchot's discovery that the property was undervalued and the birth and progress of the third party.

THE PRESS DISCUSSES RATS AND THE PLAGUE.

Watchfulness.

Boston Herald: "The chances are altogether against any seed of an epidemic being brought by an incoming ship, and even if such a seed were brought the watchfulness of our health authorities, backed by the resources of modern therapeutics, makes it wholly unlikely that the seed would find soil for growth."

"Terrible Destroyer."

Washington Post: "Better a few hundreds, or even a few thousands, quarantined for proper periods to prevent a spread of bubonic plague than our ninety millions of inhabitants endangered by the landing of the terrible destroyer upon our shores."

Line of Defense.

Rochester Democrat and Chronicle: "As it is known that the disease is spread by rats carrying the bubonic flea, the line of defense is clearly marked out."

Mortality of India.

Medical Record: "The department of health of the island and the inhabitants of San Juan, united by the same idea of the defense of the community, have worked with extraordinary activity, heroic energy and admirable skill. That is the reason why we shall not see repeated in Puerto Rico the frightful mortality of India."

Philadelphia Rats.

Philadelphia Press: "And now our own health bureau of Philadelphia, which has very properly inaugurated a campaign against rats, reports that less than one per cent. of the local rodent population so far captured show any signs of disease."

Squirrels, Too.

Detroit Free Press: "Rats must die everywhere as they died in California and squirrels died in parts of that state when they were discovered carrying infection from San Francisco, where cases of plague occurred."

"Preventive Measures."

Ohio State Journal: "Deratization is just killing the rat by poison, traps, dogs and ferrets. Depulization relates to the destruction of the flea, that makes the home on the dog and harbors the bubonic germ. Delineation is reached by the inspection of the infected zone and accomplishing a detailed bacteriological and microscopical examination."

A STARTLING SHRINKAGE.

PAJAMAS FOR THE MARINES.

(New York World.)

Reports that marines at the navy yard in Philadelphia resent the recent order requiring them to wear pajamas during their sleeping hours will bring regret to all advocates of naval uplift. Such feelings on the part of the men are most unfortunate. The order was designed for their benefit as much as for that of the service or the contractors who furnish the goods. In fact, it is about the only thing in the way of naval demands that tends directly to adornment of the marines. They can profit nothing by the construction of more warships, nor will they find advantage in the creation of more admirals; but pajamas will be of use to them on any sudden call at midnight, at home or abroad, in peace or in war.

It is said the men are the more dissatisfied because the suits sent to them are of gaudy colors and the frogs are troublesome. Such objections are natural enough in Philadelphia, but the men should be taught that unless pajamas are gay and befrogged they lose half their lure. There is nothing dudish in bright pajamas. Colonel Roosevelt's contempt for mollycoddles is well known, but the pajamas he left behind him in a railway train were pink. Marines may wear mauve or baby blue and still be heroes.

Some years ago a president of Hayti in an official message expressed regret that some members of the national guard had appeared on parade without trousers, wearing only a shirt. "Soldiers do not parade that way in European capitals," said he. Proper pride. If we cannot provide our navy with as many admirals as European nations, we can at least give as good a show when it comes to a pajama parade.

If you are a housewife you cannot reasonably hope to be healthy or beautiful by washing dishes, sweeping and doing housework all day, and crawling into bed dead tired at night. You must get out into the open air and sunlight. If you do this every day and keep your stomach and bowels in good order by taking Chamberlain's Tablets when needed, you should become both healthy and beautiful. For sale by all dealers.

WARSAW WOMAN KILLED.

Mrs. L. L. Lamkin Meets Death at Long Branch, Cal.

Long Branch, Cal., July 24.—Mrs. Lorenzo L. Lamkin, 55 years old, a tourist from Warsaw, Ind., was killed yesterday when she tried to board a launch. She started to step from the pier to the launch as a swell swung the boat from her, and she stepped into the water. Before she could be rescued the launch had swung back and crushed her against the piling. Her husband witnessed the accident.

The Messrs. Centlivre have constructed a pretty sailboat for Prof. Biewend, who is now sojourning at Rome City.

Hon. J. B. White has presented the Caledonian society with handsomely bound copies of Harper's war articles.

It is said that a Fort Wayne syndicate will explore for coal near Maysville this autumn.

The Kerr Murray works now employ a force of 200 men and are doing a business that is steadily increasing.

Hon. William Fleming and Barney O'Connor have returned from a trip to St. Louis.

Hon. Thomas E. Ellison, of this city, was at Kendallville yesterday attending to some real estate business.

Workmen are engaged in putting woven wire about the iron fence that surrounds the depot on the south.

The Journal of Medical Science for July is issued under the brilliant pen of Dr. George C. Stemen.

The ninth annual assembly of Island Park opens tomorrow at Rome City. Several hundred Fort Wayne people will be there for the occasion.

August Detzer has received his 52-inch full nickeled Victor bicycle. The Detzer Bros. believe in the good effects of riding a wheel.

C. C. Schlatter, Benjamin Crawford, Hon. R. S. Robertson and Capt. A. H. Dougal were registered at the hotels at Indianapolis yesterday.

A great crowd of men watched Waterworks Inspector Iten effect a junction in the pipes at the corner of Main and Calhoun streets last night.

Councilman James Woulfe will conduct a livery stable in the rear of his business property at the southwest corner of Calhoun and Baker streets.

Workmen are excavating for the new Tony Trentman building on Calhoun street. A large force of workmen is engaged at the work.

MOST REMARKABLE PAINTING.

"Shadow of the Cross" Is Becoming the Talk of the City.

The people of Fort Wayne who have seen "The Shadow of the Cross," that unusual puzzling painting now on exhibition at 823 Calhoun street for the benefit of St. Vincent's Orphans' home, have been both fascinated and confounded by it. The painting is indeed more than a curiosity.

The lecturer explains in an interesting manner the history of the famous painting and its world travels and records. Also the manner in which the strange phenomenon was discovered. Visitors are permitted to inspect the painting as much as they please and no one can explain its strange appearance in the dark.

It is worth one's time to go and see this unique display, which has been exhibited in every civilized country on the globe and which remains as much a puzzle today as when Henry Hammond Ahl found the striking phenomenon which makes it so valuable.

WILL OPEN HEADQUARTERS.

Washington, July 24.—The republican national committee will open its western headquarters at Chicago not later than August 1. This information reached here today and it is also understood that David W. Mulvane, of Kansas, for many years member of the national commission from that state, will be in charge of the headquarters. Among the members of the executive committee who will assist Mr. Mulvane at Chicago during the campaign are John T. Adams, of Iowa; Charles B. Warren, Michigan; Thomas K. Niedringhaus, Missouri, and Roy O. West, of Illinois.

STILL CLUTCHED PENNY.

Babe is Killed as Mother Pays Life Insurance Premium.

Philadelphia, July 24.—Almost at the moment her mother was paying a life insurance agent the premium for protection on her life, Agnes Bauder, 2 years old, was run down and killed in front of her home last night by a heavy truck.

The child was picked up unconscious, still clutching tightly a penny which she had intended spending for candy at a nearby store.

During the summer months mothers of young children should watch for any unnatural looseness of the bowels. When given prompt attention at this time serious trouble may be avoided. Chamberlain's Colic, Cholera and Diarrhoea Remedy can always be depended upon. For sale by all dealers.

VERY REV. JOHN R. DINNEN.

Anniversary of His Ordination Observed at Lafayette.

The forty-third anniversary of the ordination as a priest of Very Rev. John R. Dinnen was observed last Sunday at Lafayette, where he is rector of the St. Mary's Catholic church. His congregation extended him congratulations and he received many gifts. Father Dinnen was ordained on July 22, 1869, in Chicago, and on August 18 of the same year went to Lafayette as assistant to the late Father Hamilton, then rector of St. Mary's church. Two years later he was sent to Oxford and was the only priest in Benton county until 1875, when he was transferred to the Cathedral at Fort Wayne as assistant to the late Bishop Dwenger. In 1878 he was sent to St. Bernard's church at Crawfordsville, and in 1894 went to Lafayette to succeed the late Rev. E. P. Walters as irremovable rector of St. Mary's church. He has been in charge of the parish at Lafayette for eighteen years and has been dean of the Lafayette deanery during all of that time.

SHOW POLICE BEHIND PLOT

(Continued from Page One.)

Deputy Police Commissioner Dougherty made it clear that he was questioning everyone connected in the case as to their relations with Lieutenant Becker.

"So far," said Dougherty, "I have discovered nothing in this case either for or against Lieutenant Becker."

There were reports today that "Bridgie" Webber, now in custody of the police, had determined to tell all he knew. It was in Webber's poker room the gunmen gathered before they went out to kill Rosenthal. A large fund is said to have been raised by gamblers in the city to defend the prisoners now under arrest in connection with the case.

Meanwhile the investigation by the grand jury into the gambling situation and the revelations made by Rosenthal was continued today and there were reports that important indictments would be found.

Justice Gierich in the supreme court today dismissed the writ of habeas corpus sued out by "Bridgie" Webber, one of the prisoners in the murder case. The hearing of the writ of Sam Paul was postponed until tomorrow.

Automobile a Blind?

There were reports at the district attorney's office today that the public prosecutor had information that indicated that the gray automobile which figured so prominently in the Rosenthal case, was used merely as a "blind" and that the actual slayers of the gambler were concealed in the shadows of the hotel after the killing and mixed in the crowd.

The police department sent out to every city in the country photographs and descriptions of the men wanted for the killing of Rosenthal.

Aaron J. Levy, counsel for Shapiro and Libby, said today that his home had been entered last night and that he believed some one wanted to do him a bodily injury as there were no evidences that anything had been stolen.

Mr. Levy stayed at his club until an early hour this morning and upon his return home found the doors of his apartment had been broken open.

BARRED FROM BAY CITY.

Health Officers Will Not Allow Leper to Come Back.

Bay City, Mich., July 24.—Health Officer Goodwin says that the health officials of Bay City will never submit to having the leper Izen sent back to this city. Goodwin says Izen is a wanderer who formerly lived at Grayling, Mich., and came to Bay City occasionally because he had relatives here. He says Izen has no home here and that his wife is staying with relatives.

LOUIS G. MEYER DIES SUDDENLY

Was Sixty-Two Years Old and Had Lived Here All His Life.

WAS A MILL SAWYER

Louis G. Meyer, aged sixty-two years, eleven months and twenty-two days, a life-long resident of Allen county, died suddenly at 12:10 o'clock this morning at his home on Center avenue. Mr. Meyer was apparently in his usual health Tuesday, but became ill late Tuesday evening. Doctor Edward H. Kruse pronounced death due to heart disease.

Mr. Meyer was born in Adams township, August 2, 1849. For more than twenty-five years he had been employed as head sawyer at the Tegtmeyer mills, on Superior street, and was well known throughout the entire county. He had long been a member of the congregation of St. John's Reformed church.

Surviving besides the wife are four children—Charles and A. H. Meyer, of this city, and Mrs. James Olive and Mrs. Ralph Kiplinger of Cleveland, Ohio. There are also four grandchildren. One brother and three sisters also survive. They are: Mrs. August Zollinger and Mrs. Mary Kaiser, of this city, Mrs. Bearman and Fred Meyer, of Adams township.

HAY-PAUNCEFOTE TREATY VOIDABLE

(Continued from Page 1.)

ditions existing at the time it was made."

The writer quotes Hall, the English authority on international law, in support of that contention.

Mr. Taylor refers to Russia's repudiation in 1870 of certain portions of the treaty of Paris relating to the Black sea and contends it set a precedent upon which the United States may act.

In conclusion, the writer contends in part:

"We must take the firm stand under the well defined principle of international law as enunciated by the Russian precedent of 1870 that after there has been an essential change in the conditions existing at the time the treaty was made, it becomes voidable. In that way we can justly lift the question out of the domain of international arbitration, where we could never obtain a fair hearing, into the domain of diplomatic negotiation with Great Britain, where we will be sure to receive fair and friendly consideration."

FLOOD TRAPS FORTY MINERS

(Continued from Page 1.)

of Evans. The wives and children of the miners are in danger of being carried into the mine as they refuse to leave the mouth of the slope. Rescue parties have been formed, but at 2 o'clock they had been unable to reach any of them.

The business section of Dunbar, a few miles from Evans' station, is under four feet of water, a number of business buildings have already been destroyed by the rush of water down the mountain side. The debris is piled 25 feet high at a bridge of the Pennsylvania railroad and it is expected to give way at any moment.

The latest reports at 2:45 are that fourteen of the miners have been drowned and that there is little hope of rescuing the others alive. Torrential rains continue to fall and further loss of life and damage is expected.

SHOT DOWN IN HIS OFFICE.

Joseph Fettretch, New York Lawyer, Slain by Client.

New York, July 24.—Joseph Fettretch, a lawyer, and his clerk, Norman Bergh, were shot by a man named Conway, a former client of Fettretch, in the lawyer's office in Park Row today. The shooting followed a dispute over a law dispute. Conway was arrested.

Conway, it is said, entered the law office and without a word of warning pulled a revolver and started firing. The first shot struck Fettretch in the abdomen and he fell unconscious to the floor. The second shot struck Bergh in the hip. A third shot went wild. Fettretch and Bergh were taken to the hospital.

Fettretch died shortly after being taken to the hospital. After Conway was arrested it was said that he also was wounded and the police believe that his wound was self-inflicted.

TWO STREET CAR DELAYS.

A work car belonging to the traction company ran off the track at the corner of Lewis and Clinton streets this morning and for an hour or so passengers on the Lewis street line were forced to transfer from one car to another at that point.

Another delay of about forty minutes was caused in the service to the Driving park and to Robison park this morning when a wagon load of coal broke down on East Superior street and blocked traffic along the east track.

DIES AFTER A MONTH.

Indiana Farmer Shot at Door of His Home Passes Away.

Evansville, Ind., July 24.—Christopher Overton, 51 years old, a farmer who was called to the door of his home near Poseyville a month ago and shot down, it is alleged, by Thomas Varner, another farmer, died in a hospital here today. Varner is in jail at Princeton.

SEEK SOULS AT A CAMP MEETING

Religious Census to Be Taken at Chicago Gathering.

DEFENDS OLD HYMNS

Chicago, July 24.—Young people of the DesPlaines camp meeting perfected plans yesterday for the waging of a more active campaign in soul winning.

"We have held two workers' meetings," said Rev. T. K. Gale last night, "and we are now ready to carry out our plans. We will take a religious census of the grounds and will begin a series of small group meetings today in which prayer and personal testimony will have a large part."

Calls for More Prayer.

A call for more earnest prayer was made by Dr. E. S. Dunham, who led a pentecostal service in the afternoon.

"Why is it that the church is scarce on candidates for the ministry?" he asked. "There is only one answer: Lack of consecration.

"Consecration doesn't turn one into 'putty.' To take the temper out of steel is to destroy it. You don't want the temper taken out of you, but you do want the poison taken out.

"Consecration implies mutual love and confidence. There are thousands of women who do things which if they were found out by their husbands the husbands would not live with them any longer. True love is the adhesive power and the antidote for divorce. So it is the inspiration of consecration."

Defends Old Church Hymns.

Criticism of persons who would leave out of the hymn books of the church such hymns as "There Is a Fountain Filled With Blood" was voiced by Rev. Dr. J. L. Albritton, pastor of the South Chicago Methodist church, in his sermon preached in the afternoon.

"At the time our new Methodist hymnal was being compiled," he said, "a man expressed to me the hope that the hymns in which "the blood' was mentioned might be omitted. My reply was, 'If you leave out all reference to the blood of Jesus Christ ou leave out the gospel.'"

The man who is emotionally religious and a "bear" at home, was denounced in a sermon in the morning by Rev. Dr. James A. Beebe, pastor of the First Methodist Episcopal church, Englewood.

AUTO LAW IS TO BE TESTED.

Suit Filed in Supreme Court by Metzgar Motor Car Company.

Washington, July 24.—Automobile owners are interested in a suit filed yesterday in the supreme court to test the constitutionality of the Michigan law of 1909, making an owner liable for damages done by a machine, without regard to who was driving it, when the damages were inflicted. The Metzgar Motor Car company, held liable to pay a farmer $1,800 for damages by one of its machines driven without its consent, claims a state is without power to pass such a law.

Shelbyville Man Complains Money Was Not Sent Promptly.

Shelbyville, Ind., July 24.—William W. Wilson of this city figures that he should be paid at the rate of $45.45 an hour for the anguish of mind he suffered during an extra forty-four hours he was forced to spend in the jail at Brookville, Ind., because, he alleges, the Western Union Telegraph company failed to transmit money to him immediately after it was turned over to the operator in charge of the office here and he sued the company yesterday for $2,000.

DENIES STEAL OF DELEGATES

(Continued from Page 1.)

bluffs" without show of substantiation.

Mr. Mondell presented a categorical review of the various contests using data which it was understood later would be given out from the white house in an attempt to correct what the administration held to be a wrongful conception by the public of events at Chicago. The speaker declared that Col. Roosevelt and some of his supporters in voicing charges of fraud had by their vehemence and persistency in a period of unrest and suspicion "profoundly influenced many people."

"The claim that Colonel Roosevelt was denied the nomination at Chicago through the larceny of delegates," Mr. Mondell said, "was not only expected to contribute directly to the third party movement, but was expected to contribute even more potently by furnishing indirectly the excuse for the most impudent and revolutionary plan of political larceny ever conceived. It is proposed to steal the livery and secure the benefits of republican state organizations while at the same time repudiating the party and candidates. It is difficult to conceive a more shameless proposal of pure piracy than this."

"As admitted by the Roosevelt managers themselves they started out deliberately at the beginning of the preconvention campaign to create contests," said Mr. Mondell "A large number of these contests were pure fiction, the contesting delegates claiming to be elected at conventions, which if held at all, were held a month or two after the regular conventions Many of the contests which arose at the time conventions were held were results of pre-arranged bolts based on flimsiest pretexts. The great number of cases of conventions in which a disturbance was created and the uniformly violent character of the same gives ample ground for the belief that it was part of the general plan of the Roosevelt managers.

"The proposition that the electors on the republican tickets in states which expressed a preference for Mr. Roosevelt shall, after having received the support which their position in the republican party assures, cast their vote for the candidates of a third party has its alleged excuse in downright and persistent prevarication on which rotten foundation it lays its proposal of treasonable larceny.

"No one is justified in condemning the action of the republican convention on mere hearsay as has been largely done and to be informed is to be convinced there is no ground for criticism. The convention acted honestly and in a spirit of fairness, in harmony with party history and for the best interests of the party and the American people."

COLONEL WILL SPEAK.

Chicago, July 24.—One part of the program for the national progressive party convention was settled today with the announcement that Colonel Roosevelt would address the delegates at the Coliseum the evening of the first day's session, August 5.

Many who have identified themselves with the third party movement look to the speech of their leader as the keynote of the campaign. It was pointed out that it would follow the speech of President Taft accepting the republican presidential nomination and would precede the acceptance speech of Governor Wilson, democratic presidential nominee. President Taft is to be officially notified of his selection as the standard bearer of the republican party August 1 and Governor Wilson will be similarly notified of the action of the Baltimore convention August 7.

The speech of Colonel Roosevelt, it was declared, coming between the two, would afford an excellent opportunity to contrast his position and principles with the views of both old party nominees.

TAKES A MOMENT OFF.

Wilson Turns Briefly from Work on Speech of Acceptance.

Sea Girt, N. J., July 24.—Governor Wilson today interrupted the writing of his speech of acceptance of the democratic presidential nomination long enough to sign several papers and letters taken to him by his secretary. When the secretary returned to the cottage here he said he did not know when the speech would be completed, but that the governor would return to Sea Girt not later than Saturday, as he had appointments with several friends here on that date.

SENATE TACKS ON $6,000,000

A peculiar feature of the case is that the department of justice is endeavoring to preserve competition between the companies and prevent one from crushing the other.

Will Issue No Statement.

Senator Clapp, of Minnesota, has abandoned his intention of issuing a statement giving his view of the national republican committee's disposition of contests among delegates at the Chicago convention. He will use the material he had prepared in speeches in the Kansas primaries in August when Taft and Roosevelt electors will be chosen.

The statement defending the national committee's decisions in favor of Taft delegates prepared with the approval of Mr. Taft probably will be given out at the white house tomorrow for publication a week later in order to permit its being sent to the far west.

"Uncle Ike" as a Doctor.

"Uncle Ike" Stephenson, the oldest of senators and who carries his eighty-three years without a cane and boasts of his ability to eat three square meals a day, said at the white house today that he was thinking of giving up his toga and becoming a physician.

"What's good for a horse is good for a man," said the senator to a group which gathered to hear his homely logic.

"When a horse is sick a veterinarian gives him a pill with aloes in it and he soon gets well. For thirty-nine years I have been taking a pill with aloes in it once a day and I have never suffered from indigestion.

"The other day I told T. W. Brahany, President Taft's new assistant secretary, about the pills and how snuff was good for deafness. He wrote it up for a newspaper and since then I have been getting more than twenty letters a day asking for advice in cases of deafness and indigestion. I think I'll have to become a doctor."

HITS FLIRTING BY MAIL.

New Order by Postmaster General Will Curb Abuse.

Washington, July 24.—Approving individual action taken by postmasters of many large cities, Postmaster General Hitchcock has issued a general order which has the avowed purpose of checking the use of general delivery windows for carrying on flirtations and clandestine correspondence. Any persons who wish mail at general delivery windows, instead of home addresses, may hereafter be required to give their reasons in writing.

HEAVY EARTHQUAKE SHOCK.

Guayaquil, Ecuador, July 24.—The heaviest shock of earthquake felt for many years occurred here at 7 o'clock this morning. It caused a great panic among the inhabitants of the city, most of whom left their homes and rushed to the open spaces. No material damage has been reported.

REFINED PETROLEUM DOWN.

New York, July 24.—The Standard Oil Company of New York today announced a reduction of 15 points in the price of refined petroleum, making refined in cases 10.35 cents per gallon; refined in tanks, 4.85, and standard white in barrels, 8.45.

ALASKAN BILL PASSES.

Washington, July 24.—The Alaskan civil government bill, establishing a legislature of one house in the territory with authority to enact local laws, passed the senate today with practically no opposition. The house has passed the bill but a conference will be necessary to adjust differences.

WILL NOT RUN AGAIN.

Newburgh, N. Y., July 24.—Thomas W. Bradley, of Walden, who is serving his fifth term in congress from the Twentieth district, has announced that he will not be a candidate for re-election in the new Twenty-sixth district.

MAKES SECOND ATTEMPT.

Boulogne, France, July 24.—Fred Record, of Rochester, Eng., started from Cape Grisnez this morning to swim across the English channel. The weather conditions were excellent. This is his second attempt to accomplish the feat, the last having occurred on August 20, last year.

Street car traffic on Calhoun street was delayed about a half hour this noon when two automobiles, one of which was owned by the Edmunds Electrical company, collided at the corner of Jefferson and Calhoun streets. Both machines were badly damaged, but the occupants escaped without injury.

BURY FOUR FOR THE THIRD TIME

Clergyman's Act in Transferring Bodies Has to Be Undone.

WERE IN ONE GRAVE

New York, July 24.—Four members of the Mundy family, at Metuchen, N. J., received their third burial last week. On May 29, Rev. Ezra F. Mundy, of Lawrence, Kan., arrived there and ordered the bodies of his wife and three children removed from four separate graves in the Metuchen cemetery to one grave in a lot in which the parents of Mr. Mundy were buried in 1859.

Four bodies in one grave is not permitted in Metuchen, and no body can be moved inside of two years after interment. Mr. Mundy's wife died a year ago this month. The three children, Ella, Charles and William, died years ago. Search for Mr. Mundy was made, but it was learned that he had gone back to Kansas. Relatives here were much incensed and ordered all the bodies taken up again and returned to their original graves.

Then it was learned that the day previous to the moving of the bodies the minister had sold the family buryin plot to Captain Ayres, and he did not care to give up his realty, as every plot in the cemetery is occupied and there is not one for sale. It took several weeks to straighten out this tangle, but finally Captain Ayers was induced to part with his bargain at an advance, it is reported, and the work of transferring the four bodies was begun. Several members of the Mundy family and a few friends were present, while a clergyman went through the burial ceremony.

Rev. Dr. and Mrs. Vichert had an opportunity to meet many of their old friends last evening at an informal, but very pretty reception given by Dr. and Mrs. Maurice Harrod at their home in Washington boulevard east. About sixty people were invited. Mrs. Harrod was assisted in serving refreshments by her daughters, Mrs. Sidney Karn and Miss June Harrod. Sweet peas and gladiola blossoms formed a pretty decoration for the rooms.

Mrs. Deakin and Miss Deakin, of London, England; Miss Louise Tewkesbury, of Irvington, N. Y., and Miss Betty Wilson, of Logansport, were the honor guests at a party who attended the evening performance of the Barnum & Bailey circus last evening. Mr. and Mrs. Edward G. Hoffman, who were hosts for the company, entertained them with refreshments at their home afterwards.

Miss Alma Anderson, of Madison street, delightfully entertained a number of her friends last evening in honor of the Misses Olga Wesman and Lillian Knothe, two brides-elect of the near future. The rooms were tastefully decorated in pink and white. The principal game of the evening was progressive pedro and prizes were won by the Misses Ruth Wolf and Paula Reese, who later presented them to the honor guests. At the close of the game a dainty luncheon was served. Corsage bouquets of sweet peas were given the guests as favors. The guests were the Misses Frieda Kampe, Stella Sanders, Grace Brennon, Ruth and Esther Wolf, Anna Melching, Hilda and Loretta Knothe, Paula Reese, Martha Gallmeier, Lydia Heine, Lena Honeick, Verma Hinton, Esther Koenig, Frieda Scheiman, Ermine Miller, Mrs. Arthur Schack, Mrs. Arthur Saffen and the honor guests. Miss Olga Wesman will be married this week to Rev. Carl Ehs and they will make their future home in Rockham, South Dakota, and Miss Lillian Knothe will be a bride of the early fall.

Klotz-Christen.

St. Peter's Catholic church was the scene of a pretty wedding this morning at 9 o'clock when Miss Frances Catherine Christen and Mr. Clem Daniel Klotz were married by Rev. Charles Thiele, who celebrated the nuptial mass. The bride was attended by Miss Julia Christen and the bridegroom by his brother, Mr. Anthony Klotz. The bride wore a very pretty and becoming gown of white messaline and oriental lace. The lace was draped on the skirt and held with handsome bead ornaments that were worn by the bride's mother when she was married. The bride wore a veil of tulle fashioned into a cap and held with a wreath of lilies of the valley. The bride carried her prayerbook with dainty ribbon marker. The bridesmaid wore a pale blue messaline gown covered with cream lace and in her hair she wore a blue ribbon bandeau with crystal bead ornament. The bridesmaid's bouquet was of white roses. Immediately after the church service the bridal party and the immediate family relatives were served a breakfast at the home of the bride's parents, Mr. and Mrs. Al Cook, 427 Wallace street. Out of town guests were Mrs. N. S. Reifers and daughter Mary and Miss Julia Brown, all of Lafayette. This evening a reception to about one hundred friends will be held at the Cook home in honor of the bride and groom. The members of the Amity club will furnish music and the members of the Wishton Wish club, of which the bride is a member, will serve refreshments. The members of the club are Misses Vera Nipper, Cecelia Mettler, Norah Klotz, Mary Eckrich, Ella Strebig, Catherine Ticke, Mary Bogenschcutz. At the breakfast the bride's table was prettily decorated with flowers and the colors of green and white will predominate in the reception this evening. The bride and groom have deferred their wedding trip until September and tomorrow will go directly to their home in Sheldon, where Mr. Klotz is in charge of a barber shop. They will go to housekeeping in a pretty cottage. The bridegroom is a highly respected young man and is popular with his acquaintances. He is a son of Mr. and Mrs. Daniel Klotz, of East DeWald street. The bride is a daughter of the late Mr. John Christen, a well known business man. She is pretty and capable and has a sweet disposition. The bride will be greatly missed by her nearest friends, with whom she is a favorite. Miss Rose Sotek, of Chicago, will be an out of town guest at the reception this evening.

JUST CATS.

Hello, children, one and all.
See me crewed up like a ball,
Sitting here at my ease.
Don't disturb my comfort, please.
I am sitting on my tail,
Comfy as a little snail.
My tail is soft as fluffy down,
I'm the nicest cat in this town.
I like this basket for a seat,
Don't you think it's kinda neat?

FALL DRESS HINTS DIRECT FROM PARIS

Maybelle Mortimer Writes of Things Seen in World's Fashion Capital and Sends Photographs of Stunning New Costume—Paris Fashion Letter.

(By Mabelle Mortimer.)

Paris, July 24.—It goes without saying that the separate coat will be the one "high spot" of the winter fashion. Every house is showing them, even conservative Worth and Doucet, who are of the "stand-patters" and who lag behind the "progressives" about as far as do the "stand-patters" and "progressives" in our national politics.

By the way, those same politics are being talked about much over here, the French designer being quick to grasp any national development that he can use to exploit his wares for the American.

All this is in explanation of the great use of navy blue serge with touches of scarlet and white.

These deluded foreigners seem to think that because we are in the midst of a national political campaign we will want to wear red, white and blue.

At one little shop whose designer is much liked by women of individual taste I saw a kilt pleated skirt of white satin, the pleats stitched down to within eight inches of the bottom, a cutaway coat of blue serge with white lace ruffles at the throat and wrists and a red belt. It was a stunning combination for a young girl. Although as yet I have seen few high collars, long sleeves seem to be the thing on all frocks, whether for dress or informal wear. I have not seen a skirt that is perfectly plain, narrow, straight and short. There are always some little folds or frills somewhere.

Waists are either one of two extremes, short up under the bust or with belt as low as possible. Francis, who makes many outdoor suits of the "dressier" sort, has evolved one which has many Directoire ideas. It is made of brown velveteen for the coat and tan broadcloth skirt. The French use much more velveteen than we do, and very pretty it is, much prettier than a near-silk velvet. Of the suit which I am sending the photography the coat is in Directoire form, with metal embroidery and military sash, and has two box pleats at the front and back. The half long sleeves are finished with deep frills of ecru lace. The skirt and vest are of deep ecru broadcloth, and both have broad pleated frills of lace which form a continuous line down the front. The vest is made in one with the skirt. The front of the vest is slightly draped. It has a high collar and guimpe of tulle and a girdle of moire ribbon, allowing the coat to be thrown open. The skirt is in draped form, having three pleats on the front lap, and closes at one side.

Hints on Health.

Since hay fever is aggravated in cases with excessive thyroid function, the effect of which is vaso-dilatant and to lower the blood pressure, this condition is successfully treated with remedies that have a vaso-constructing action and that raise the blood pressure; for instance, hydrastis, ergotin and through hyperaemia, by means of a bandage around the throat.

Another very simple remedy is to retire to a dark cellar, cooled to a temperature of about 50 or 60 degrees, and remain there for about half an hour before breakfast. While undergoing this treatment wash the nostrils with liquid vaseline with a camel's hair brush.

Sunlight as well as the pollen of plants is one of the chief irritants which cause an attack of hay fever. Even a strong electric light turned on the nose will bring about an attack.

What Dieting Means.

Many intelligent persons, including not a few physicians, sincerely believe that dieting implies the eating of unpalatable foods. This is a mistake. Foods that taste good are more apt to digest well than unpalatable articles, but the individual is also more liable to be tempted into dietary excess by the former than the latter. This is all the truth there is in the notion.

Dieting means simply that the individual shall refrain from eating things that are known to disagree with him, and shall limit the amount which he eats, while judicious medication and rest to the digestive organs are restoring normal tone and activity. Usually the necessity for dieting means debility or abuse of the digestive organs, and dieting alone, while it will insure a measure of comfort, will not cure the original trouble.

In the Kitchen and the Pantry.

This is the day of the spring chicken, so delicious of flavor and so tender that the housewife is willing to stretch her allowance to cover at least one chicken dinner during the week. Fried spring chicken is a favorite everywhere, especially in the south, where cooking is an art as well as a science.

Asparagus Soup.

Take the tops from half a hundred heads of asparagus and soak them in water for some time. Then put them into three pints of nicely flavored stock, to which has been added a cupful of new milk, and let them boil for ten minutes. If necessary, color with a little spinach green. Time to make, one hour.

Fried Chicken.

Choose a tender spring chicken and joint it. Dip each piece of the chicken into cracker dust, then in beaten egg and again into cracker dust. Set aside until the coating is formed and stiff, then fry to a golden brown in deep fat. Drain in a heated colander, sprinkle with salt and pepper and serve on a hot dish. Serve with a cream sauce.

Corn Fritters.

Take on can of corn, two eggs, four tablespoonfuls of sifted bread flour, three tablespoonfuls of milk, one teaspoonful of salt and beat eggs very light, then combine all the ingredients and stir until well mixed. Have a large skillet or griddle well heated and grease with half lard half butter. Drop with a tablespoon in small mounds, bake slowly and see that inside is done. When light brown take up on a hot platter, set over hot water. Can be served with syrup for lunch or as a vegetable at dinner.

LORIMER SAYS HE'S OUT OF IT

Deposed Illinois Senator Never Expects to Be Candidate.

WILL APPEAL LATER

Chicago, July 24.—Declaring that he would take no part in the national campaign this fall and that he never again expected to become a candidate for public office, William Lorimer, whose election to the United States senate was recently declared invalid, addressed several thousand friends at Orchestra hall last night, who had gathered publicly to welcome him home. It was his first public appearance since his return from Washington.

He arrived in the city from his summer home at Fox lake, Illinois, shortly before 8 o'clock p. m. and was escorted to the hall by a delegation of friends.

In a two hour address Mr. Lorimer reviewed in detail the history of the fight which recently resulted in his being unseated by the United States senate.

"Not one senator outside of the investigating committee ever read the record in my case," said Mr. Lorimer.

"I am not a candidate for public office and never expect to be. Election to office is not the sort of vindication I demand. I shall not speak during the coming national campaign. I do not want it said that I tried to injure either Mr. Taft or Mr. Roosevelt. But when this election is over, when the heat of the campaign has died down, I shall appeal directly to the people of this state and country in an effort to get the truth before every man, woman and child. There shall be no peace. I will tell the truth to the people."

Attorney Lee J. Hartzell went to Goshen this morning on business. He will be absent from the city until Thursday night.

GIRL IS WHIPPED ALMOST TO DEATH

Georgia Father's Wrath Falls on Son's Sweetheart.

OTHER MEN HELP HIM

Mason, Ga., July 24.—Lying on a cot in a hospital, her body a mass of bruises, and her life despaired of, Miss Essie Carter today whispered to her attorneys of the fearful beating she alleges she suffered at the hands of W. S. Dozier, the father of the boy who had become infatuated with her in her home in Dublin. While the father plied the lash, she declares, two men held her helpless, and fifteen others with guns in hand stood by to prevent interference.

In order to keep him out of the way, V. O. Dozier, the boy sweetheart, she says, was locked in the home of one of his brothers. Tomorrow, according to Miss Carter, the lad will come to Macon to return to her several diamond rings she lent him in order that he might pawn them to satisfy his debts.

Helped by Neighbors.

The men she accuses of being involved in the whipping, who face legal proceedings, are among the most prominent in this section. W. S. Dozier is clerk of the superior court of Terrell county, and those accused of helping him include one son and neighbors, who are leaders in business and professional life.

For some time Vogt Dozier, the 21-year-old son of W. S. Dozier, has been enamored with Miss Carter. His father has used every effort to persuade his son to desist in his attentions. Failing, Mr. Dozier warned her to leave town several weeks ago, which she did. She returned a short while ago and was again warned to leave the city. The girl failing to leave, Mr. Dozier, on Saturday night, according to the story told here, between 11 and 12 o'clock, in company with a party of eighteen in all, went to the woman's house in automobiles of Jim Dozier and Irwin McRae.

Dragged Out of Home.

"They dragged me out of my house," Miss Carter told her attorneys today, "and two men pinioned my hands. Then they raised my nightgown—they had pulled me out of bed—and, while two men held me, so tight I could not move, the father gave me an unmerciful flogging with a buggy whip. The negro cabman held the light so as to let the father see where to hit.

"When he was too tired to whip me any more he said he would stop and rest, and that he was not yet satisfied. Then I fainted, and this, I suppose, scared them, for when I came to my senses I had been taken back into the house and they were all gone. Then my sister came and brought me to Macon for treatment."

Gagged to Hush Screams.

Friends sent for Doctors Gardner and Crumbley, and when the physicians arrived they had to pull strips of her gown from the cut places. It is said that the bottom of her gown was rammed into her mouth to hush her cries.

The injured woman, scarcely able to talk, says that she has helped Vogt Dozier out financially several times.

CLAY SCHOOL TREES FIXED.

City Forester Carl Getz has just completed his work on the three elm trees and one maple tree on the grounds of the Clay school at the corner of East Washington and Clay streets. The trees have all been carefully pruned and from several of them a good deal of decay has been extracted and the opening filled with cement and zinc, over which the bark can grow. Forester Getz says that on the rear of the school premises is one of the most perfect elm trees he has ever seen.

EDITORS FAIL TO TAKE STAND

Indiana Republicans Put Off Taft-Roosevelt Decision.

NO NEED FOR HASTE

Indianapolis, July 24.—The Indiana Republican Editorial association, in a spirited meeting at the Claypool hotel, yesterday afternoon postponed taking a stand at this time in the Taft-Roosevelt controversy and deferred the adoption of resolutions until another meeting, which probably will be held in about a month. The meeting was called by Leo K. Fesler, of Indianapolis, president of the organization, and all but a few of the editors who responded to the call favored adherence to Taft and the regular republican organization.

Both avowed Taft men and the avowed Roosevelt supporters spoke against the adoption of resolutions at yesterday's meeting, but there also was some sentiment among the pro-Taft men in favor of placing the organization on record without further delay.

George P. Haywood, of the Lafayette Journal, made the motion for the appointment of a resolutions committee, and it was that motion that precipitated the debate. When the discussion first opened there was considerable sentiment in favor of going on record then and there, but before the meeting progressed far that sentiment gradually diminished. The decision to delay the adoption of resolutions was made by a viva voce vote.

"The editors feel that they should have more time in which to feel the public pulse back home," said one member of the association from northern Indiana when he emerged from the meeting carrying his coat and wiping the perspiration from his brow.

"Let us wait a while; we have a little time yet in which to go on record in this political matter," he added.

HOUK ISSUES A CALL.

Republicans to Plan for Election of Convention Delegates.

Republican County Chairman A. E. Houk has just issued a call for the committee meeting to be held Saturday at his office in the Pixley-Long building. Among others who will attend are most of the candidates on the county ticket. Arrangements will be completed for the election of delegates to the district, state and joint senatorial conventions.

The primaries for the selection of convention delegates from the county will be held in the city on August 2, between the hours of 7 and 9:30 o'clock at night, and in the country on August 3, from 1 to 4 o'clock in the afternoon. The polling places will be the same as were used during previous elections this year.

District Chairman A. J. Vesey has been informed that work of organization for the conventions is progressing in every county. Through a mistake, the call for the DeKalb county primaries for the selection of delegates was made for Friday and Saturday of this week. All other counties in the district, however, will vote for delegates August 2 and 3.

POISON IN ICE CREAM CHURN.

Phillipsburgh, N. J., July 23.—A dozen or more residents of this town were made ill by eating ice cream purchased from a local manufacturer, and, while a majority have recovered, several still are in a serious condition. An investigation by the police disclosed that, in the hurry of making the ice cream, an employe of the establishment dumped a bottle of poisonous liquid into the churn, thinking it was the flavoring extract for which he had reached.

Young Tramp Wanted Heroin Tablets and Was Sent to Police Station.

CITY COURT DOCKET

Charles Reese, eighteen years old and who said he became addicted to the use of heroin tablets at Niles, O., where everybody uses them, was picked up at the People's drug store, at Clinton and Berry streets, where he became abusive when the drug was refused him. He is charged with vagrancy and his case will be called July 30 in the city court.

To Sergeant Dan Kintz, who made the arrest the boy said he had been using the drug for about six months and that he had no trouble getting it at Niles, but had been unable to persuade any local druggist to sell it to him. The recent agitation has evidently shut off the supply at least so far as strangers are concerned.

Broke a Horse's Rib.

John Ormiston, employed as a teamster at the Moellering brick yard south of the city, was given a fine of $10 and costs and ten days in jail for cruelty to animals. He came to the city a day or two ago with a load of brick and when he went back he made his team run all the way and both horses were about exhausted. One had a broken rib where he struck it with a board.

The Other Cases.

There were twenty minor cases on the docket but the majority of them were left over from yesterday morning and most of them were allowed to go as the circus is out of the city.

Frank Moses promised that he would try again to live with his wife who had him arrested for deserting her and the case against him was continued indefinitely.

Of the drunks who were fined Charles Williams and William Stanford each drew $5 and costs and Mike Milan got $1.

PARKER FAILS IN ATTEMPT.

New Effort to Ascend to Summit of Mt. McKinley Is Futile.

Fairbanks, Alaska, July 24.—Prof. Herschell Parker, of Columbia university, and Belmore Browne, of Tacoma, arrived at Tolvina on the Tanana river late last night and reported that they failed to reach the summit of Mt. McKinley. Two attempts were made, one one the north and the other on the south peak. An altitude of 20,200 feet was reached on the south peak and 19,000 on the north peak.

Mt. McKinley terminates in twin peaks, each approximately 20,500 feet high. Several blizzards about the summit prevented their scaling. Prof. Parker said a heavy earthquake was felt while the party was on the mountain. Excellent photographs were taken.

GIRL MAY BE ALIVE.

Missing New York Nurse Reported to Have Been Seen on Street.

New York, July 24.—A search of the hospitals and morgues for the missing Dorcas I. Snodgrass, the Mount Vernon nurse, who vanished over a week ago, has proved without result and the girl's relatives take hope that she may be alive. A maid employed in a Mount Vernon family says that she saw Miss Snodgrass on Twenty-third street last Monday. The maid did not speak to the girl. Detectives are looking for the missing nurse in this city.

Mrs. G. W. Ellenwood, of Wells street, is improving from a serious attack of rheumatism.

Mrs. Paul E. Stein, of Detroit, Mich., is visiting her mother, Mrs. Emma Cahup, of East Lewis street.

Mr. and Mrs. James Haberly and son and Mr. and Mrs. Lawrence Eberbach have returned from a fortnight's outing at Rome City.

Mrs. M. J. Powers and son, Allen, who were guests of Mrs. F. J. Reinecke and Mrs. J. B. Reuss, have returned to their home in Kansas City, Mo.

Miss Frances Gilmore, of Chicago, who formerly lived here, is the guest of Miss Marie Pierre. The two young women are spending a week at Rome City.

Mrs. Max Clark and son, Ralph, of Denver, Col., and Messrs. Samuel Clark and Ben Gardner, of Chicago, who were visiting Mr. and Mrs. Ralph Clark, have left for their homes.

The Misses Clara and Marie Strassen, of Milwaukee; Anna Gross, of Logansport, and Clara Nuntzwiger, of Convoy, Ohio, are guests of Miss Emma Block for a week.

Miss Bessie Hassler and her sister, Mrs. Harry Turner, who have been for a number of days touring several Indiana lakes, have returned here and later in the week Mrs. Turner expects to return to Grand Rapids.

Miss Ada Roesner, of 2028 Brookside street, was given a surprise party on Sunday afternoon by a number of young friends. The day was Miss Ada's twelfth birthday anniversary. Games and a delicious supper were the chief things for entertainment.

WATCH FOR HIDDEN TREASURE.

Workmen Find Articles of Value in Old Home of Miser.

Hartford City, Ind., July 24.—The old dwelling known as the "Billy Romine property on West Washington street, that is being dismantled is closely watched for hidden treasure. The building is constructed of hewn timbers covered with walnut siding and flooring. For more than sixty-two years it has stood upon its present site, and for more than forty-five years was the home of William Romine, an eccentric deaf and dumb miser who was a shoemaker by trade. Romine bought the lot sixty-two years ago for $60. Although it is in the residence district it sold for $3,000 to the Odd Fellows' lodge, upon which will be erected a home for the lodge and a theater. Workmen who are watching closely for hidden treasure have found a number of articles of small value hidden between the rafters.

WORKS BOLD SCHEME; CAUGHT.

Youth at Lafayette Arrested on Charges of Fraud.

Lafayette, Ind., July 24.—Paul Mafola, 19 years old, is in jail here on charges of defrauding an Indianapolis firm. He became acquainted with A. B. Conrad, of the Thomas Cusack company, Indianapolis, and learned that Conrad was expecting an expense check. He called at the postoffice for Conrad's mail, but received none. Then he sent a telegram to the Cusack company requesting $30. This was promptly sent and receipted for by Mafola in Conrad's name. Conrad soon learned of the deception and caused Mafola's arrest. The money was recovered.

REAPERS ARE TO BE TAKEN ALONG

Star Players of Springfield Club Going to Indianapolis.

O'DAY IS PICKED

Indianapolis, Ind., July 24.—When Charles "Hank" O'Day takes charge of the Indianapolis club as manager he will take with him from the Springfield club of the Central league "Rebel" Keene, first baseman; Frank O'Day, an outfielder; Catcher "Red" McKee and Pitcher Theodore Goulait.

It is likely that the places left vacant by the removal of these players will be filled from the ranks of the Indianapolis club as it is under the same ownership.

O'Day was today chosen as manager of the Indianapolis club and succeds Charles O'Leary. President Sol Myer, in announcing the change, said it was a start toward trying to life the Indianapolis club from the bottom of the percentage column.

O'Day before going to Springfield was with the Decatur (Ill.) Three-I club. O'Leary, who succeeded James Burke as manager here a short time ago, came from Detroit, and has a two year contract with the Detroit club. He is expected to return to the ranks as a player.

MUSCLES CUT TO BONE.

Julius Kiefer's Wrist Badly Cut at Centlivre Brewery.

Julius Kiefer, foreman of the bottling works at the Centlivre brewery, sustained serious cuts about his right wrist and hand at 10 o'clock this morning, and is now at the Hope hospital. Mr. Kiefer was assisting in filling the bottles, when a portion of the machinery became out of order and while trying to fix it, one of the bottles burst and a heavy piece of glass struck him full on the wrist and hand. The muscles were cut down to the hand and the palm of the hand and the fingers were badly torn. Mr. Kiefer's home is on Parnell avenue.

THREW MATCHES ON ROOF

And Henry Szink's Kitchen Caught Fire at Noon.

The roof of the kitchen of Henry Szink's residence at 1009 West Jefferson street, was damaged to the extent of $50 by fire at noon today. When Assistant Chief Jasper investigated, he found a lot of matches lying on the kitchen roof, some burned and some unburned, which had been thrown probably from the second story window. The property is owned by Henry Roehrs.

AVIATOR HURT IN FALL.

Hempstead, N. Y., July 24.—Edson F. Gallaudet, a wealthy amateur aviator, well known in New York and Washington, while flying near Hempstead Plains today, fell with his machine from a height of about 100 feet and was seriously injured. Gallaudet was flying in his original type monoplane, which is equipped with 100 horse power.

NEGRO WANTED A FIGHT.

A negro giving his name as Stock Green was locked up at police headquarters today on a charge of drunkenness and he will probably have a more serious one to answer to in the city court tomorrow as he is charged with having drawn a knife on the stationmaster at the interurban depot.

JURY COST NOW $7,500.

Expense in Darrow Trial Running Up to High Figure.

Los Angeles, Cal., July 24.—The bribery trial of Clarence S. Darrow entered its eleventh week today, but because of the illness of Juror Leavitt there has been no session of court since last Friday.

It was expected that another continuance would be taken today until tomorrow morning in the hope that the sick juror would be able to attend court at that time.

County officials are conducting an investigation of the expenses of maintaining the Darrow jury, which up to the present time has aggregated about $7,500. County Auditor Lewis yesterday held up a bill for $340, submitted by the hotel which is keeping the jury. Seven rooms are occupied by the jurors and bailiffs and county officials declare the rental is exorbitant.

GRANT FAILS TO PICK UP WINNER

Friends Thought With Money Behind Him He Would Land a Pennant.

BEATEN IN THE FIRST

(Special to The Sentinel.)

Terre Haute, Ind., July 24.—A loss in the opening game of the series with Fort Wayne coupled with the fact that the Tots have lost pretty consistently during their last few stands on the home grounds and the slump that landed Terre Haute down in the second division, has been a distinct disappointment to the local admirers of Angus A. Grant.

The fighting little Scotchman has never won a pennant in the Central league in spite of the fact that he is the only manager who has ever been continuously in the organization since the circuit was formed, although he has set the pace two or three times right down to the wire.

In his venture at Evansville and during his reign at South Bend he was handicapped by lack of capital but the owners here have granted every reasonable request and aided him with their money in his effort to corral a bunch of ball players who can put Terre Haute in the running.

His chief complaint was that his outfield was not hitting and he added Frank "Red" Farrell and George Wheeler in the hope that the stick work of this pair will put the Tots up in the race before the close of the season.

He is willing to prove that the Fort Wayne team is the luckiest thing in baseball. He came home after four straight losses at Fort Wayne with the statement that the Billikens were playing lucky baseball and that a break would soon come as the club had not indicated that it is made of championship material.

In the first game here in which Bill Goldrick won over "Happy" Doyle all of the breaks were with the leaders and Grant offers this as evidence that he is right in his stand. However, the Billikens are leading the league and have been for some time and this is pretty still testimony that Grant is wrong.

Art Loudell was expected here in time to open the struggle with the Tots but word was received that he is still under treatment at Youngstown and he was instructed to remain until the doctor would permit him to return to the game. He will probably remain until the club takes its swing in the east next week and will join the club either at Wheeling or Youngstown.

Billy Goldrick pitched good ball all the way through but was hit no oftener than Doyle and the latter can charge his defeat principally to his own bad fielding. He had some timely aid in this department and five errors were chalked against him and his supporters.

Doyle held two members of Fort Wayne's famous wrecking crew without a hit. Shaughnessy picked off a single and neither Clancy or Rogers could hit him and he breezed the latter twice. Iowerth Blount paved the way for the first tally when he hit for three bases in the fourth and scored on Vandagrift's single.

Another was added in the fifth when Billy Goldrick hit for a double after his battery partner had been passed and had advanced on McLafferty's bunt. The Tots hooked up in the last half when Calbert hit and scored on Snyder's double and the latter got home on McLafferty's wild heave to first.

After Fabrique had been retired in the seventh Martin hit and coaxed a throw from Doyle that sent the ball to the fence and on which he took third. McLafferty was passed and on Goldrick's ingfield grounder Pick threw badly to catch Martin at the plate. Doland erred on Blount's grounder and Goldrick went to third while McLafferty was registering at home and scored on Vandagrift's sacrifice fly.

Jack Snyder hit for two bases with two men on in the ninth but got too anxious to score and was thrown out by Rogers at the plate just in time to save the game. The score:

CROSS WANTS A CHANCE.

New York, July 24.—Leach Cross is not afraid to walk where Ad Wolgast fears to tread. Through his manager, Sam Wallace, Cross has sent a wire to Tom McCarey of Vernon, Cal., offering to fight Joe Rivers at that club on Labor day.

Wolgast, after his hard bout with the Mexican recently, refused a tender of $15,600 for another match with Rivers. Cross expects to hear from McCarey at once.

KNOCKS PLAYERS OUT.

Tex Covington is now pitching for Providence in the International league. His control is no better than it was when he was with Detroit. In a recent game he hit two Newark batters, knocking both unconscious. One, Outfielder McCarty, was taken to the hospital.

ANDERSON PICKS HIMSELF FOR IT

May Go to Second Base if Dodd is Called to Pittsburg.

BEMIS IS RELEASED

Youngstown, O., July 24.—President Barney Dreyfus, of the Pittsburg Nationals, has been here watching the play of Ona Dodd at second for the Stogies and if he decides to recall him to play second base for the Pirates Manager E. J. Anderson will probably go to second himself as he will get an outfielder in event of Dodd's recall.

It is probable that if Dodd is put at second to succeed Alex McCarthy, who has slumped badly in his batting, Wheeling will get Pitcher Conzelman and Outfielder Eddington, and this is given color by the fact hat "Peg" Bemis has been released. He was let go just before the Stogies left home Tuesday.

Young Simms, the heaver who finished the Monday contest so cleverly, would not sign with the local club. He was offered a contract, but stated that he did not care to make a start in professional ball. He is a Pittsburgher and likes the treatment and salary he is receiving for pitching every Saturday for Sewickly.

Mr. Dreyfus did not say positively that he would recall Dodd and he is just as apt to take Jansen instead as both players were signed to play second and under the agreement with Wheeling they can be taken by the Pirates any time their services are needed.

The president of the Pittsburg club has always been fair in his dealings with the minor league clubs and if he finds that he has to exercise his option he will give Wheeling something just as good. There is nothing certain about the matter and the story had its start from the following published in a Pittsburg paper:

"There is a strong probability that before the end of the present week a change will be made in the line-up of the Pittsburg baseball team. Whether the shift is to be temporary or permanent will depend wholly upon the way the new arrangement works, but it is said that for a game or two at least, Manager Clarke is determined to try an altered combination.

"The infield is the department affected by the proposed change, and second base is the particular position which the management desires to brace. Manager Clarke himself will disclose no part of his plans, but it is said that the work of Alex McCarthy at the keystone sack has not been entirely satisfactory of late and that one of the recruits discarded in the spring is to be brought to supplant him.

"According to the rumor the player who is to return to the Pirates is one of the youngsters sent to the Wheeling club of the Central league in the spring. Pittsburg transferred four young recruits to the Stogies, Catcher Haley, Infielders Dodd and Jansen and Outfielder Booe. As Haley and Booe may be safely eliminated from the reckoning, it follows that the man brought to the local team will be either Dodd or Jansen.

"Dodd is now playing second base and Jansen third for Wheeling, but Jansen is also a capable second sacker and formerly played that position for Keokuk. Both have been hitting the ball hard all season, and it is figured that in this important department the proposed change will strengthen the Pirates. McCarthy started out like a whirlwind in the sticking branch this year, but fell into a slump a month ago and has been doing very little hitting since that time."

SWELL RELATIONS ARE HORRIFIED THAT A RIXEY SHOULD BE A BALL PLAYER, BUT YOUNG EPPA GIVES 'EM THE LAUGH.

EPPA RIXEY, JR.

"Baseball's just as honorable a Profession as Law or Medicine," says aristocratic young pitcher of Phillies.

Displacing six feet four of atmosphere, Eppa Rixey (no it is not a new summer drink) is a National league sensation.

This chap, whose name sounds like a class yell cut short by the police, is a member of the Phillies and "Smiling Charley" Dooin, for once in his jinx-ridden career, seems to have grabbed a live one.

Eppa Rixey is one of the Rixeys of Virginia, and can write F. F. V. without making Harry Lee turn over in his grave.

The decision of Eppa to take up baseball was not reached without many family councils under the Rixey roof at Culpepper, Va. One of Eppa's uncles is Surgeon General P. M. Rixey, U. S. N., retired as rear admiral, upon whose chest Alfonso XIII. hung a medal for services rendered the crew of the Santa Maria, following an explosion. Another was the late John Franklyn Rixey, congressman from the Old Dominion.

Eppa had to argue before his father, an insurance man, gave his consent. Despite the shock to conservative F. F. V.'s young Rixey cannot understand how he is violating the conventions by playing ball.

He believes that if he makes good he will have done as much toward upholding the proud name of one of the oldest families of Virginia, as have other Rixeys whose names are chiseled in the marble walls of the hall of fame.

Rixey is 21. He is a big, loose jointed boy, who pitched phenomenal ball for the University of Virginia. He has won three of the four games he has pitched for Philadelphia and against the Cubs looked a world beater. He is one recruit pitcher who pitches with his head.

"I have taken up baseball because I believe I can pitch," explains Rixey. "I intend to continue my school work until I take a degree, either in chemistry or medicine. Then I will either decide to continue playing ball, or take up one of the other professions.

"If I make good with Philadelphia, I will continue to pitch. I know I can't play ball all my life, and when I'm through I can fall back on one of the other professions. I cannot see why ball playing should bring any discredit to the family. It is as honorable as any other profession I could choose. I think I did a good thing when I turned to baseball."

Which seems to prove that this scion of an ancient line carries a sensible head on his broad shoulders. Also it indicates pretty clearly what baseball has come to when it offers attractions to a youngster of the caliber of this Virginia university boy.

GRANT LOOKING 'EM OVER.

Scouting for New Material for His Club of 1913.

Aggie Grant, manager of the Terre Haute baseball team, wired headquarters yesterday that instead of coming home from Grand Rapids direct, he would go to Peoria and Bloomington on a little scouting experience. The main object of the scrappy boss is to look over the product of the Three-I league to see if there are any youngsters in that circuit who look like they might be able to make good on the Terreir force.

It is not his intention to attempt to buy any men for this season. He wants to look at some promising material with a view to obtaining options on their services for next season. One of the owners of the club stated last night that he was satisfied with the present team since it has been strengthened by two new outfielders, and does not believe that any changes will be necessary this season.

ELEVEN LEFT TO RACE FOR STAKE

Conceded an Open Race in Which Half Dozen Have Chances.

TRACK VERY HEAVY

Detroit, Mich., July 25.—Eleven horses were left on the list to compete this afternoon for the $10,000 M. and M. stake, the chief event of the week's Grand Circuit meet at the state fair grounds. Horsemen generally considered it to be an open race, half a dozen starters being conceded a chance to win.

There were three other races on the card—2:20 pace, purse $1,000; 2:22 trot, purse $1,000, and 2:07 pace, purse $1,000.

The track was heavy today. Yesterday's summaries are as follows:

PHILLIPS SEEKS SPEED FOR TEAM

Has Bought Irvine from the Montreal Club to Play the Outfield.

SWARTLING STILL OUT

Youngstown, O., July 24.—In an effort to increase the speed in the field and on the bases, Manager Bill Phillips has purchased for the local club the release of Outfielder Irvine from the Montreal club of the International league and ordered him to report at once.

He has been playing this season with the Bridgeport club, of the Connecticut league, and is expected to bolster the Steelmen who, it is believed, are about to slip after holding a good place in the pennant race up to the time Hughey Tate was hurt.

Irvine worked in good form against Youngstown last season while with Akron. He injured his ankle and was kept out of the game during the latter portion of the year. He was sold to Pittsburg, and Fred Clarke sent him to Montreal. Phillips is glad to get the speed merchant, as he thinks with him in the game there will be a different story to tell when the locals get on bases.

Besides being a speedy fielder, Irvine is a dependable hitter. He has been burning the Connecticut league up recently, but that club was forced to part with him when a money consideration was offered.

Phillips returned from Pittsburg last night where he held a conference with Hugo Swartling, former Zanesville first baseman who was sold to the Steelmen but who refused to report. The manager returned without Swartling although he has not given up hope of inducing the player to report.

Swartling was to give the local boss his final decision today but up to noon no word had been received. Manager Phillips is also in communication with a first baseman of the defunct Rockford club of the Wisconsin-Illinois league whom he may land in case the Swartling deal fails to go through.

This will truly be a week of scouts in this city. Yesterday Mike Kahoe of Washington, and Bill Doyle of the St. Louis Americans saw the Youngstown-Wheeling game. They are here to buy "Rube" Watkins who belongs to the Steelmen, but who has been pitching great ball for Sharon, and also to make bids on Scott, Ainsworth and Sheer. Other scouts will be here this week.

Phillips has received word from several clubs to hold off naming a price on Scott until their representatives have arrived. The latest club to dicker for the Indiana boy's services is the Chicago Cubs. Some lively bidding is looked for the balance of the week. If possible Phillips may close up for the sale of Scott this week.

T. & C. LEAGUE NOTES.

Waterloo has signed a new pitcher who will succeed Tobias, the old South Bend twirler. Tobias is not all in yet, but he has not been winning, so he was let go.

Dornick, local player, has been signed by Kendallville.

Bruno and Laible are playing good ball for Auburn. Both are local shop leaguers.

The Shamrocks will go to Hicksville, O., next Sunday, where they will meet the Browns. Hicksville is second in the Trolley league.

HIS USUAL JUDGMENT.

Frank Newhouse, former Central league umpire, picked Flynn to beat Johnson in the Fourth of July wrangle. If Newhouse's judgment on anything was ever right he was careful to conceal it when umpiring here.—Grand Rapids Press.

YANKS BUY FIRST SACKER.

New York, July 24.—The New York American league club yesterday purchased First Baseman Malcolm Barry from the Brockton club of the New England league. Barry will report at the end of the New England league season.

FANS WILL HOLD HOGAN DAY SOON

Zanesville Club Has Its Hat Out Again for a Subscription.

SOUTH BEND THERE

Down at Zanesville the baseball hat is out again and fandom is asked to kick in kopecs enough to keep alive a team that has subsisted most of the year on charity.

In connection with the regular celebration of the day which is being promoted by the local branch of the U. C. T., it will be Marty Hogan day to celebrate the return to the city of the man who tried it twice and made a couple of miserable failures.

Just one good thing will come out of the affair for which it is proposed to sell 5,000 tickets at $1 each. South Bend will furnish the opposition on August 3, the date agreed upon, and another of the lame clubs of the league will get a financial boost that is highly necessary just at this writing.

This will probably be Zanesville's last season in the Central league or in any new organization that may succeed it, because in the town where teams are supported by passing the hat now and then it is impossible for the visiting clubs to make any money. All the cash raised under these booster day arrangements goes to the home club and the visitors who are compelled to make regular trips and take guarantees day after day are the losers and are really the people who are supplying Zanesville with baseball.

Hogan was hired as a last resort. Pendry had worked hard and is a capable manager, but he had no money back of him and could not get players to strengthen up his club. From a distance it looks like the owners have made a mistake. Bench managers are expensive luxuries for any club, let alone one that is living on charity, and unless Hogan gets results and gets them quickly, his head will fall in the basket.

ZEIDER GETS THE JOB.

New York, July 24.—Manager Callahan of the Chicago White Sox, retained an option when he sold Jacques Fournier, the young Frenchman, to the Montreal club of the International league. Rollie Zeider will hold down the initial sack for the Sox.

BUTCHER TURNED BACK.

Hank Butcher, outfielder sent to Portland by the Naps several weeks ago, has been returned by Portland on account of poor fielding and hitting. Willis Butler, ex-Toledo shortstop, has also been turned back to the Naps because of poor fielding. Butlers' hitting was good.

$25 FOR HOME RUNS.

In the Connecticut league some of the clubs pay the players $5 for each home run made during the season. The other day there were five homers in one game, three by Holyoke players and two by Bridgeport sluggers.

YEAGER SUCCEEDS LUSH.

New York, July 24.—Joe Yeager, third baseman of the Montreal International league club, has been appointed manager of the team, to succeed Billy Lush.

FINN BIGGEST OLYMPIC POINT WINNER.

H. Kolehmainen, of Finland, was the biggest point winner in the Olympic meet. He won the 5,000 and 10,000 flat races and the 3,000 metre cross country race. This photograph shows him finishing in the 5,000 metre, which, exclusive of the marathon, was the most terrific race of the games. The great French distance runner, J. Bouin, is shown close on his heels. The winner established a world's record, 14:05 4-5. Both winner and Bouin collapsed after finishing and were carried from the track. Photograph by W. G. Shepherd.

Specific Blood Poison

Specific Blood Poison usually begins with a tiny sore which is the only outward evidence of its presence, but down in the blood the treacherous poison is at work and soon its chain of symptoms begin to crop out. The mouth and throat ulcerate, sores and ulcers appear on the body and the glands in the groin swell. Mineral medicines cannot cure Specific Blood Poison; they only shut the disease up in the system to break out afresh later. S. S. S. goes into the circulation and removes the last trace of the infectious virus, tones up the stomach, bowels, kidneys and all portions of the system, and thus makes a perfect and lasting cure. S. S. S. is made of roots, herbs and barks and does not contain a particle of mineral or other harmful drug. Thousands have cured themselves of Specific Blood Poison by the use of S. S. S. It will cure you if you will give it a trial. Special Home Treatment Book and any medical advice free to all who write.

SO MANY ACES IN POKER GAME

They Broke Up Perfectly Lovely Poker Party at Hammond.

FIGHTING PLAY FOLLOWS

Chicago, July 24.—Barring the fact that five men were wounded, all the furniture was broken up and bullets flew like hail, Victor Barren's little pocker party at his road house in West Creek, near Hammond, Ind., Monday night, was decided success.

All those present held good hands. In fact such a lot of good poker hands were dealt at the same time was almost unheard of by most of the players. However, they noticed that two players seemed to have a happy faculty for getting the best hands when there were many "big" hands dealt.

This fact might not have been commented upon, however, had not James Phillips, a lanky Kentucky visitor, noted another peculiarity of the game.

"Lucky" Stranger on Job.

One of the "lucky" players had opened a pot and drawn three cards. Phillips drew one card and filled a flush. He bet half of his pile of chips and, to his consternation, was raised by the "lucky" stranger.

"Let's see what you've got," said Phillips.

"Four aces," said the "lucky" player, biting his hand.

But that was not the most remarkable feature of his hand. Two of the aces were hearts.

"Got any more aces?" asked Phillips wildly.

The possessor of four aces angrily waved his arms to show that he could not be trifled with in that way. The movement was an unfortunate one. Never, for another ace flew out of his sleeve.

A Kentuckian "Starts Things."

That was enough for Phillips. He picked up a chair and threw it at the "lucky" man. Then he kicked over the table, smashed the chandeliers and threw a cut glass pitcher through a plate buffet.

Howard Brooks, a horse trader, was disappearing through a smashed window when Phillips drew a revolver and fired at him. Brooks' right leg was broken. Several revolvers were drawn and five men were wounded before the fight finally was concluded.

Phillips made his way home, threatening to kill anybody who tried to stop him. He gave himself up half an hour later, however, when the sheriff reached him from Kankakee.

GRANDMOTHERS USED SAGE TEA

To Darken the Hair and Restore Gray and Faded Hair to Its Natural Color.

It is easier to preserve the color of the hair than to restore it, although it is possible to do both. Our grandmothers understood the secret. They made a "sage tea," and their dark, glossy hair long after middle life was due to this fact. Our mothers have gray hairs before they are fifty, but they are beginning to appreciate the wisdom of our grandmothers in using "sage tea" and their hair and are fast following suit.

The present generation has the advantage of the past in that it can get a ready-to-use preparation called Wyeth's Sage and Sulphur Hair Remedy. As a scalp tonic and color restorer this preparation is vastly superior to the ordinary "sage tea" made by our grandmothers. The growth and beauty of the hair depends on a healthy condition of the scalp. Wyeth's Sage and Sulphur Hair Remedy quickly kills the dandruff germs which rob the hair of its life, color and lustre, makes the scalp clean and healthy, gives the hair strength, color and beauty and makes it grow. Get a 50 cent bottle from your druggist today. He will give your money back if you are not satisfied after a fair trial. Special Agents, Meyer Bros.

YOUNGEST MAYOR IN THE WORLD WON OFFICE BY AID OF GIRLS AND GOATS.

Little Rock, Ark., July 23.—Imboden, Ark., has the youngest mayor in the world. Joe F. Sullivan, not yet twenty-one, and a hopeless cripple, won the executive office over two old political campaigners. A pair of goats and a dozen pretty girls contributed to his election.

JOE F. SULLIVAN, MAYOR OF IMBODEN, ARK., WITH HIS TEAM OF GOATS, AND MISS LIZZIE WILSON, 16, HIS CAMPAIGN MANAGER.

Sullivan was stricken with paralysis at the age of four, losing the use of his left arm and lower limbs. He has nevertheless succeeded in climbing several rungs of the ladder of success.

Joe admits that the goats and the girls elected him. The goats gave him his education. They hauled him to school and enabled him to sell papers on the street for a livelihood, helped him to gather news for the local papers, and continued with him after he became an editor. The girls took hold of his campaign and forced the male portion of the population to lend him their support.

Now that he has become mayor, Sullivan does not therefore look with scorn upon his faithful little team. The chief executive of Imboden may be seen daily driving to and from his offices in his goat-drawn chariot.

When his father died five years ago, Sullivan was in the fourth grade of the public school. He had been out of school for five years.

Five years behind in his studies, unable to walk a step, having the use of only one hand, weighing ninety-five pounds—this was the condition of this plucky lad on entering school that fall.

Leader of his class, winner of a scholarship, winner of a gold medal for making the highest average grades, weighing only seventy-five pounds—this was the status of this same ambitious youth the following spring.

The next year he graduated from the grammar school at the head of his class. After a year in the high school he began reporting for one of the local papers. Two weeks prior to his election he became editor.

Everybody in Imboden laughed when Sullivan announced himself as a starter in the race for mayor. J. W. Regan and R. M. Lane, both prominent and experienced politicians, had already announced for the office.

The amusement of his opponents neither deterred nor frightened Joe. He drove his team of goats into the main business section of the city, where he informed the voters that he was really in earnest.

Being an advocate of woman suffrage, Sullivan appointed a dozen of his pretty schoolgirl friends as his campaign managers. They made a thorough canvass of the city for him, boosting the "boy with the billygoats." They corralled many a shaky vote by promising their male friends that they "would never speak to them again" if they didn't support Sullivan for mayor.

When the votes were counted it was found that Sullivan had received a larger support than both his opponents combined. The whole Sullivan ticket had won in a walk.

The defeated candidates were tempted to contest the election on the ground that Sullivan was under age, but this design was frustrated by the attorney general of the state, who announced that he would recognize no "usurpation proceedings" against Joe."

Sullivan was inducted into office a couple of weeks ago.

He began his official duties fifteen minutes after being sworn in. He appointed his committees and inaugurated a clean-up crusade for the town in less than two hours' time. Honesty and economy are to be the slogans of his administration.

Among the first to wait upon the new mayor was his campaign committee of twelve young ladies, with Miss Lizzie E. Wilson, aged sixteen, chief manager, of their head.

TRAMPLED UNDER HORSES.

Henry Wiegmann Injured at Circus Grounds, But Will Recover.

Henry Wiegmann, 1318 East Washington street, sustained a slight concussion of the brain and severe bruises about the knees and other parts of his body when he was struck and knocked down by a team of eight Barnum and Bailey circus horses Tuesday evening, about 5:30 o'clock. Mr. Wiegmann was rendered unconscious for an hour, but his condition is reported from the Hope hospital as being not serious.

Mr. Wiegmann, who is employed as a butcher in the Laurentz and Hartshorn packing house, was standing in the roadway at the corner of East Washington and Glasgow avenue on his wheel watching the crowds leave the circus grounds, when the circus team suddenly swung northward into the road and before Mr. Wiegmann could move out of the way the first horses had struck him and thrown him to the street and beneath their hoofs. When the team was stopped Mr. Wiegmann was lying underneath the fourth team of horses.

Walter Bennett, who was injured when he fell from a freight car near Gar Creek Saturday night, is improving at Hope hospital.

HOW TO GAIN HEALTHY FLESH

Meyer Bros. Co. Advise Use of Samose.

While thinness may not be a disease, yet it is in reality a condition that needs attention. Under the nourishing power of Samose healthy, natural flesh will soon be attached.

This remarkable flesh-forming food strengthens the system generally and builds up the fleshy tissues so that good, natural plumpness results.

An ounce of flesh is better than a pound of theory. Meyer Bros. Co. believes that the best possible demonstration of the flesh-forming powers of Samose is to have it tried by their customers and to induce them to use it they offer to pay for the Samose in case it does not give satisfaction. No stronger proof than this can be given of their faith in it. They have seen hundreds who were weak, thin and scrawny, become plump, robust and strong, solely through the use of Samose.

If you are thin or in poor health, take advantage of this offer. You run no risk whatever and the chances are 98 out of 100 that you will notice a gain in weight after using Samose for a week or ten days. july-24-26

COP CAUGHT IN HOLDUP.

Robbed Chinese Laundryman Whenever He Needed Cash.

Baltimore, July 24.—Arraigned before a police magistrate, George W. Hoffman, 27 years old, a probationary policeman of this city, confessed that he had twice robbed a Chinese laundryman in order to get money to pay his debts. Early in March Hoffman, posing as a health inspector, got the Chinese to conduct him to a rear room, where he pointed a pistol at the laundryman and secured $18 from him. Hoffman entered the laundry a second time, and pointing a pistol at the Chinese, demanded that he open the money drawer. As the policeman was taking the money from the drawer the Chinese grabbed his hand to take the pistol away. A struggle ensued, during which, it is charged Hoffman struck the Chinese several times with a blackjack and shot him in the hand. Hoffman was caught after a short chase.

LYNN SHOUB IN BIKE ACCIDENT

Well Known Bass Employe and Ball Player Severely Injured.

INSTALLING BOILERS IN OLD MEXICO

Bass Sends Two Water Tube Boilers to Industrial Concern in Gomez.

Lynn Y. Shoub, of the Bass Foundry and Machine shop office, one of the best ball players in the Bass shop team league, figured in a bicycle mix-up this morning which will keep him off the diamond for several weeks, although he may be able to perform his duties at the office. While coming to work on his wheel he collided with another cyclist and both were thrown to the pavement. Shoub fell in such manner as to severely sprain his right elbow and he carries the arm in a sling. He is one of the best batters in the team and as a right fielder he is said to have no superior in the shop league.

MOVEMENT IS GENERAL.

All Railroads Are Organizing Safety Committees.

The meeting of Wabash officials and employes here yesterday for the purpose of instructing each other concerning methods of safety to men employed by the company, as well as the prevention of accidents wherein damage to property and freight in transit occurs seems to be general in the country. The Rock Island company is working along the same lines and under the caption of "A Dollar a Day" the Rock Island Employes' Magazine calls attention to the fact that "rough handling is responsible for 55 or 60 per cent of the damage to freight cars which require repairs. Rough handling is also responsible for a large percentage of "damage to freight" claims, amounting to over a million dollars a year. The percentages quoted do not cover the actual cost of repairs, but the number of cars damaged. The percentage for the cost of repairs, it is asserted, would be much higher, because cars damaged by rough usage are more expensive to repair than those which are damaged because of defective material or poor construction."

In substantiation of this statement and to back up the appeal for savings the magazine quotes the following figures: "55 per cent, or $1,756,473 of the total amount expended for repairs in the year ending June, 1911, was caused by rough handling. There are in round numbers 5,000 employes who handle these cars. The repairs averaged $351 per employe per annum, or nearly $1 a day. If each employe does his part toward accomplishing the saving mentioned it will assist greatly in cutting down an unnecessary expense."

TALKED ABOUT FUEL.

Wabash Officials Discuss Important Matter.

After the meeting held here yesterday by Wabash railway officials for the purpose of organizing a "safety committee," Master Mechanic G. W. Smith assembled his road foremen of engines and the general foremen of the several shops on the division and had a discussion on "Shop Matters and Fuel Economy," one of the most important questions now before the railway men for solution. The meeting yesterday of the officials in the interest of the claims department resulted in the formation of a safety committee with the following personnel: J. C. Sullivan, G. W. Smith, J. C. Meehan, W. S. Danes, Michael Lumm, A. W. Metzker, A. S. Mead, L. Arland, G. W. Harris, A. F. King, R. A. Messmore, R. E. McNally, J. T. McPartland, J. S. Risor, C. E. Wells and J. T. Cullen.

CAN'T GET HELP.

Work in Shops Greatly Delayed by Shortage of Workmen.

The business of every industry in Fort Wayne is good, but it would be much better were the concerns able to get men sufficient for the work of their shops. At the Bass works fifty good laborers can find employment with reasonable assurance that the work will continue, and Foreman G. W. Szink, of the Pennsylvania blacksmith shop, said he was badly in need of a dozen good helpers. Cards announcing that men are wanted are posted conspicuously at the entrance to almost every factory and railway shop in the city. At the Pennsylvania round house eight or ten laborers were given employment yesterday.

OVERCOME BY THE HEAT.

Boilermaker A. White Stricken in Pennsy Shops.

A. White, a boilermaker in the Pennsylvania shops, collapsed about 9 o'clock this morning as a result of the intense heat. A cab was summoned and he was taken to his home, 634 Walnut street, where he is now being treated by the company's surgeon. The stroke seemed to affect him mentally for awhile and his shopmates had some difficulty in quieting him. He will be all right in a few days.

WILL INSTALL BOILER PLANT.

Robert Schellhammer Leaves Tomorrow for Mexico.

The two big water tube boiler built at the Bass Foundry and Machine works for the Compania Industrial Joberna, of Gomez, Palacio, Mexico, and now well on their way to that country, will be installed under the supervision of Robert Schellhammer. He will leave tomorrow for that place and in addition to installing these boilers, he will install a number of steam drums for the same company.

WILL VISIT NATIVE CITY.

Next Saturday General Foreman Hugh T. Hogan, of the Pennsylvania machine shop, will enter upon a two weeks' vacation. He will leave that night for New York and after viewing the sights there and at Atlantic City a few days, will go to Rochester to spend the remainder of the vacation term with his sisters and with the people who were his boyhood associates, for Mr. Hogan was born and reared in Rochester.

JOE LEPPER BETTER.

Engineer Joseph Leeper, who has been confined at St. Joseph hospital, by an attack of paralysis several weeks, is now making good headway towards recovery. He recognizes and can talk to his friends who call to see him and if the improvement continues until the latter part of the week, Mr. Leeper will leave his bed and spend a part of the time in a wheeled chair.

DEMONSTRATING AUTO TRUCK.

S. S. O'Conners, a representative of the General Vehicle company, arrived in the city this morning and immediately took up the work of demonstrating the five ton auto truck just purchased by the Bass company. Mr. Conners will also instruct a chauffeur in handling the big vehicle. It is said to be one of the largest and best equipped auto trucks in the city.

NEW COAL DOCKS AT TILTON.

Trainmaster C. E. Wells, of the Wabash, who spent a couple hours in the city this morning, went to Tilton at noon to look after some matters connected with the building of new coal docks at that place. Double track work is in progress in that vicinity and the present coal dock is in the way. It will be torn down immediately and a new one erected.

RETURNS TO SCHENECTADY.

William J. Foster, an alternating current engineer, who is prominently connected with the General Electric works at Schenectady, N. Y., has returned to that city after spending three or four days here on business with the officials of the Fort Wayne Electric works. Mr. Foster is well known in the electrical world.

HAND BADLY BRUISED.

David McLeish, a boilermaker at the Pennsylvania shops, received the force of a blow from a stayboit maul yesterday afternoon. His right hand was badly bruised and it was feared at first that some of the bones might be broken. He is off duty as a result.

FIFTY TONS OF MACHINERY.

The shipping department of the Fort Wayne Electric works was quite busy yesterday, when it sent out fifty tons of dynamos, regulators, meters, etc. These products went to all parts of the country. This was not a record breaker, however, but it was a good showing.

PETE GODA RESUMES WORK.

Mr. and Mrs. Peter H. Goda have returned from a four weeks' tour of the Pacific coast territory. Mr. Goda, who is a motive power inspector, resumed work at the Pennsylvania offices this morning.

EAST ON BUSINESS FOR COMPANY.

Supt. W. M. Wardrop and Trainmaster J. F. Patterson are in New York on business for the Pennsylvania company. They will return home next Thursday.

INDUSTRIAL NOTES.

C. J. Lepper, of the Pennsylvania erecting shop, is taking a vacation.

A. L. Bear has quit his job at the Pennsylvania blacksmith shop to take work outdoors.

Next Sunday Machinist Ed. J. Ehrman, of the Pennsylvania shops, will visit friends in Chicago.

General Manager A. Z. Polhamus, of S. F. Bowser & Company, has returned from a business trip to Colorado.

Foreman John R. Kretsinger, of the Pennsylvania planing mills, and his family are at Rome City for a two weeks' stay.

Four car repairmen and two laborers in the shipping department took employment at the Pennsylvania shops this morning.

C. H. Mennewish, of the Pennsylvania erecting shop, has gone to Rome City to join his father, who is there for two weeks.

Miss Olda O'Day, the daughter of Pennsylvania Machinist J. S. O'Day, left this afternoon for New York on a visit with friends.

Ed White, Pennsylvania machinist, resumed work this morning. With his wife he had been visiting in Grand Rapids several days.

George Blakesley has resumed work in the testing department of the electrical works, after three or four days' visit in Chicago.

W. L. Wilt was summoned to Philadelphia last night on business connected with the motive power department of the Pennsylvania.

After a week's illness, R. T. Powers reported for duty at the Pennsylvania shops this morning. He is the electric welder at the shops.

W. A. Barrett, traveling salesman for the Bass Foundry and Machine works, was at Tipton, Ind., yesterday on business for the company.

J. King, of the Pennsylvania round house, and his wife left today for Graf, Iowa, where they will be the guests of Jacob Baston for two weeks.

O. J. Parks, chief car inspector of the Pennsylvania, has returned to the city. He had been engaged in some special work on the Vandalia system.

Chief Clerk W. C. Mahrt, of the Wabash division storekeeper's office, has returned from Detroit, where he was the guest of a friend two or three days.

Machinist E. C. Rehling, of the Pennsylvania erecting shop, fell yesterday and sprained his right hand so badly that he will be unable to work for a while.

Harry Starke, assistant foreman of the Pennsylvania blacksmith shop, has resumed that duty. He was the guest of Gus Hilgerman at Clear lake two or three days.

Supt. J. W. O'Brien, Chief Engineer J. J. Ryan and Road Foreman C. E. Richards, of the Lake Erie and Western, are out inspecting the line from this city to Connersville today.

Charles Rippe, foreman of the Pennsylvania pattern shop, has gone to the lakes for a two weeks' stay and Fred Lepper is acting as foreman of the department in the meantime.

J. W. Runyan and C. G. Davis have returned from Columbus, Ohio, where they had charge of the S. F. Bowser company exhibit at the convention of the sealers of weights and measures.

Miss Grace Rapp, of Boone street, who is employed at the Wayne Knitting mills, is taking a vacation. She left Monday for Kenosha, Wis., where her sister and brother reside, to spend the week.

E. P. Kahoe, of the Pennsylvania machine shop, is taking a week's vacation and the following shopmen are off duty on account of sickness: W. C. Tegtmeyer, O. H. Stocks, Ed Bodrecker and C. Reinking.

Ed Blotkamp, who had a hand hurt three weeks ago, reported for work at the Pennsylvania machine shop this morning. E. W. Seibert, the machinist, who had an eye hurt last Friday, also reported for work.

Machinist W. H. Knoll has not yet reached the point where he can resume work, though he continues to improve. Mr. Knoll was very sick and three or four weeks ago it was thought he could not recover. He has worked at the Wabash shops a third of a century.

The Pennsylvania is said to have under consideration a proposition to serve lighter meals on its dining cars east of Pittsburg at a less cost than the present menu. This, it is believed, will attract a larger number of travelers to the diner and make the department self-sustaining. It lacks considerable of being such under present methods. It was at first proposed to increase the rates, but this was abandoned under the belief that the public would not stand for it.

Two companies of the Ohio national guard—Company G, of Napoleon, and Company F, of Defiance—will pass through the city, over the Wabash, August 4, en route to Fort Benj. Harrison, where they will go into camp for ten days. Other portions of the Ohio national guards will go into camp this week and tomorrow there will be three special trains over the Pennsylvania carrying the Akron, the Mansfield, the Tiffin and the Canton troops to Fort Benj. Harrison.

Tony Malone, a track walker for the Wabash, found the dead body of a man hanging by means of a rope to a bolt head inside a box car in the Ridgely yards at Springfield, Ill., last Friday. There was nothing on the body by which it could be identified. The car was picked up from the Anderson switch of the Chesapeake and Ohio road several days before the body was discovered and the advanced stage of decomposition indicated that suicide might have been committed several days ago.

Few men have served an employer as many years as has C. W. Murray, a baggagemaster at Cleveland for the New York Central road. He began work when he was seventeen years old and August 7, when he will be placed upon the pension list, he will have worked for the company fifty-three years. During the civil war, in 1861-1865, Mr. Murray was connected with the baggage department of the Big Four at Columbus and he tells some heart-rending stories of those days. He says he saw full regiments of soldiers leave that city for the seat of war and saw some of the same return with greatly depleted ranks. Many were the coffins occupied by men who were killed in battle or died in camp that Mr. Murray helped to handle at Columbus in those days. He doesn't want to pass through similar scenes again.

LONG SILENCE UNBROKEN.

Even Ether Test Fails to Loosen Convict's Tongue.

Sacramento, Cal., July 24.—Even the ether test left alienists undecided today whether Charles Carson, a convict in Folsom penitentiary, had been stricken dumb or is shamming. He has not spoken a word for two years and ten months.

The common effect of ether is to loosen the tongue while the subject is coming under or out of its effects.

It was expected that Carson was losing voluntary control of his vocal organs and reply to questions put to him by the physicians, but no sound escaped his lips.

Carson was sentenced to life imprisonment in 1904 for assault and robbery. Two years later he was given a sentence of death for his share in a murderous jail break, but has several times been reprieved.

Big Feature of Cadillaqua Celebration at Detroit.

Detroit, Mich., July 24.—Yacht races off the Detroit Country club, Grosse Pointe, and a rowing regatta in the Detroit river, at Belle Isle, were the principal features of today's Cadillaqua celebration.

In addition, a swimming and diving tournament and water polo game were scheduled.

More than sixty entries were received for the various classes of yachts, including many of those which took part in the Put-in-Bay regatta last week.

SAYS LUHNOW IS IN EUROPE.

Boulder, Col., July 24.—Allegations by T. A. McHarg, attorney for Mrs. C. A. Luhnow, tend to clear up the recent mystery of the disappearance of her husband, a New York millionaire. McHarg declared Luhnow is in Europe and is expected in New York next month. According to the attorney he will be greeted at the dock by a sheriff with papers in a divorce proceeding about to be instituted by Mrs. Luhnow.

GRAIN AND PROVISIONS.

Chicago Market.

Chicago, Ill., July 24.—Denials of rust damage today pulled the wheat market down. September started at 93⅛c to 94c and then declined to 92c.
After a little further decline, the market partially recovered. Storm damage in the Pacific northwest was said to be larger than had been estimated and the Canadian crop outlook less satisfactory. Closing figures were easy at 93c for September, a net loss of 1⅝c.
Corn took a weak turn on account of the fine weather. September opened at 65⅝c to 66c and then sagged to 65½c.
Drought damage reports later from Kansas and parts of Nebraska and Oklahoma brought about a sharp advance. The close, however, was easy, with September ⅛c net higher, at 66¼@66⅜c.
Scantiness of elevator stocks here made oats comparatively stronger. September started at 34c to 34⅛c and descended to 33¾c.

OIL.

Toledo Market.

Toledo, O., July 24.—North Lima, 82c bbl; South Lima and Indiana, 79c bbl.

STOCKS AND BONDS.

The Day on Wall Street.

New York, July 24.—Leading stocks showed fractional declines at the opening today. Of the specialties, Sears-Roebuck gained over 2 and United Cigar Manufacturing Company 1.
The stock market today continued its uncertain course, verging at times upon heaviness. Some of the standard shares were again pressed for sale but only in a moderate degree and early recessions were soon overcome. The electrical issues displayed further strength, while National Biscuit common and preferred was distinctly weak. Trading was extremely dull with operations largely of a professional character. Bonds were steady.

NEW YORK MONEY MARKET.

New York, July 24.—Prime mercantile paper, 4½ per cent.
Sterling exchange, firm, with actual business in bankers' bills at $4.84.75 for sixty day bills, and at $4.87.75 for demand.
Commercial bills, $4.84.

Time loans, dull; sixty days, 3¼ per cent; ninety days, 3½ per cent; six months, 4¼@4½ per cent.

MEMORIAL TO DR. WALTHER

(Continued from Page 1.)

Attacks "Roman Heirarchy"

One of the principal addresses of the morning was that of Rev. George F. Schulte, of Kokomo, whose theme was announced as "The Guardians of Liberty." In the course of his remarks he made a vigorous attack on what he termed the "Roman heirarchy" as tending to encroach upon civil and religious liberty, and his address was enthusiastically applauded.
Prof. Klein followed Rev. Mr. Schulte and differed with him in some of the points that the latter made in his address.

The 1915 Convention.

By an unanimous vote the league decided to accept the invitation of the California delegation to hold the national convention of 1915 at Los Angeles.
It was announced at the sessions this forenoon that the contributions made to the support of the national organization in the way of free will offerings had amounted to $105.
The session this morning was opened by devotions led by Rev. Verwiebke, of Buffalo, N. Y. Following this service congratulatory telegrams were read from the secretaries of the leagues at Chicago and New York city.

The Farewell Service.

The business sessions of the convention will close late this afternoon, at which time the place for holding the convention next year will be decided. The farewell service will be held this evening at the Emmaus church. The sermons will be preached by Rev. F. Buenger, of Wisconsin, in German, and Rev. F. Lankenau, of Napoleon, O., in English.

Field Day Tomorrow.

The field day exercises will be held tomorrow at the Foster park. It will be a gala day of sports and a big dinner. Games and amusements of various kinds have been arranged and it will be largely attended.

Visit Knitting Mills.

At the conclusion of the yesterday afternoon business session the leaguers went in city cars to the knitting mills, where they were presented with hose and half hose. The trip was highly enjoyed.

RESCUED AS YACHT SINKS

burned. The loss aside from that sustained by the steamer is estimated at $20,000.
The steamer Trinidadian was so heavily loaded that she could not be gotten out of the path of the fire and was soon ablaze. Captain Swank and his crew of twenty-nine men were asleep when the fire started and had barely time to escape in small boats. They were taken aboard a Pennsylvania state quarantine tug and are in the care of citizens of the town who furnished them with clothing.

BULL MOOSE NOW OFFICIAL TITLE

(Continued from Page 1.)

in the report further material for what he has to say about control of corporations, which will be one of the most important themes in his address. The speech will be one of the longest the colonel has ever made.
Colonel Roosevelt's neighbors in Oyster Bay adopted the name "Bull Moose" today and hereafter the Roosevelt progressive club of Oyster Bay, formed last week, will use it, although there have been some doubts in the past whether the colonel approved it. These doubts were cleared away by the colonel himself, who for the first time yesterday publicly employed the nickname as applied to the new party. In his speech in New York he said:
"I see that the bull moose is a pretty vigorous animal."

WHAT HE'S FIGHTING FOR.

Chairman Randall Explains It to Iowa Convention.

Des Moines, Ia., July 24.—"Theodore Roosevelt is fighting that his brother shall not continue to be bound, and the progressive party is with him in the fight."
This was the closing sentence in the speech of Temporary Chairman Frank Randall, before the Roosevelt progressive party state convention here this afternoon. The speaker in his opening sentences said:
"We are not with Roosevelt; he is with us, with us in our battle for equal political opportunity, with us in our struggle for truly representative government."
Mr. Randall declared that the new party was needed "to carry out the promises of the republican party."

J. C. PELTIER SINKING.

Physicians Fear Death May Come at Any Hour.

Physicians attending J. C. Peltier, the veteran undertaker, say that the condition of the patient is today so precarious that the end may come at any moment. Mr. Peltier is growing gradually weaker and it is believed there is no chance for his recovery. He has been very ill for some weeks.

Rev. Father J. R. Dinnen, rector of St. Mary's Catholic church at Lafayette, is celebrating the forty-third anniversary of his ordination. Ffther Dinnen is a brother to Dr. J. M. Dinnen, of this city.

LOCAL FORECAST.

Fort Wayne, Ind., July 24.—For Fort Wayne and vicinity: Fair and cooler tonight and Thursday.

GENERAL FORECAST.

Washington, July 24.—For Indiana: Generally fair and somewhat cooler tonight and Thursday.
For Ohio: Local showers tonight; cooler northwest portion; Thursday fair, somewhat cooler south portion.
For Lower Michigan: Cloudy tonight, showers east portion; cooler south portion; Thursday fair.

Summary of Weather Conditions.

A storm which was central over the Dakotas yesterday morning has moved eastward and is crossing the lake region this morning; it has given showers over the upper Mississippi valley and the lake region, heavy rainfalls being reported from several stations; Cleveland reports a rainfall of 1.90 inches; Detroit, 2.32 inches, and Green Bay, 4.38 inches. Fair weather has been quite general over the Atlantic, gulf and western districts. While moderately cool weather continues over the north Atlantic coast districts, warmer weather is general over the central states; in the southwest high temperatures occurred yesterday with temperatures as high as 94 to 98 degrees as far north as Nebraska and Iowa; cooler weather is again reported from the northwest.
In this section fair and cooler weather is probable for tonight and Thursday.

OBITUARY.

Russel Ulysses Baxter was born Aug. 6, 1910, and departed this life July 20, 1912, aged 1 year, 11 months and 14 days. He leaves a father and mother, Mr. and Mrs. Milton C. Baxter; a brother, Herbert; a sister, Sovina, of 2126 Curtice avenue, and several relatives, besides a large number of friends to mourn. He was a loving little son and a little friend to all who knew him. His illness was of brief duration, but was accompanied by great suffering. His life was so short, yet his mission was fulfilled and God needed him in the "home over there." Forever in the hearts of parents and loved ones will his memory be sweet and sacred until by grace and faith the union may be formed again, not to be broken in the eternal home of our God. The services were held Tuesday morning at 10 o'clock at the St. Paul M. E. church, Walton avenue, Rev. F. H. Cremean officiating. Interment at the family burial ground in the Lindenwood cemetery.

Anniversary, Reformed Orphans' home, August 1. Auto transfer.

Steeple Jack Roberts is expected to return the latter part of the week to inspect the work he did on the dome lady on the court house, and if the weather vane is working properly, he will receive his remuneration of $62.50 from the county commissioners.

PITTSBURG HAS A HOOSIER CLUB

Former Indiana Folk Now Living There Have Organized.

A MEMBERSHIP OF 300

Indianapolis, Ind., July 24.—Three hundred Hoosiers, many of them men dominating some of the biggest factors that make Pittsburg's "smoke," have organized the Indiana State Society of Pittsburg, and they are about to present the "home state" with a state flower. Richmond beauty roses decorated the banquet table at which 165 representative Pittsburg men and women organized the society early in June. They wanted the state flower for decorations, found that Indiana had no state flower, adopted the Richmond beauty and expect soon to urge upon the state government the official sanction of this rose as Indiana's floral emblem.

The Indiana State Society of Pittsburg is the result of a suggestion by C. Ellsworth Parker, who was born in Indianapolis and who, for twenty-two years, has been prominent in Pittsburg public life. He is the president of the new organization. Mr. Parker is visiting in Indianapolis, and at the Claypool hotel yesterday told interestingly of the formation of the Hoosier society, which has attracted wide attention throughout the east.

Four Hoosier-born men in Pittsburg were talking of the Indiana society of New York one day late in May. Mr. Parker said, when it was suggested that probably thirty or more Indianians could be assembled for a Hoosier dinner in Pittsburg. The next day two Hoosier city editors of Pittsburg papers were consulted and gave the idea some hearty publicity.

Busy Answering Calls.

For twelve days Mr. Parker, whose name was associated with the articles, was kept up until 10 o'clock and later each evening answering telephone calls regarding the Hoosier organization. Railroad superintendents, prominent Pittsburg educators, financiers and persons prominent in public life of the city inquired about the movement.

On the night of the twelfth day 165 persons took dinner together at the first Hoosier gathering. A constitution and by-laws were drafted, and within a short time more than 300 names were enrolled for a great Indiana picnic that will be given in September.

The dinner stirred many Hoosier memories. Persons associated in childhood life in Indiana, who had lived in Pittsburg for ten to twenty-five years without knowing of the whereabouts of one another, met at that dinner. They all had something good to say for Indiana and when all had become acquainted it was found that four railroad superintendents, four school superintendents, many prominent manufacturers and business men, more than twenty teachers and several prominent Pittsburg financiers were in the gathering. Every person at the tables had acquired some distinction in his Pittsburg career.

Mr. Parker, as president, now has applications for membership from prominent persons in Wilmington, Butler and other Pennsylvania towns within a radius of seventy miles of Pittsburg.

Almost every prominent town in Indiana was represented. W. H. Donner, formerly of Columbus, Ind, a multimillionaire, was one of the prominent figures. J. W. Riley, superintendent of the Pittsburg & Lake Erie division of the New York Central lines, was present. Judge J. R. McFarland and Mrs. McFarland, who was of the Fletcher family of Indianapolis, were enthusiastic over the organization. J. J. Turner, vice president of the Pennsylvania lines west of Pittsburg, was another of the prominent railroad men. S. L. Heater, superintendent of the Pittsburg public schools, was a former Indiana educator at the dinner. C. M. Bunday, president of a great pharmaceutical concern in Pittsburg, will be remembered by many Indianapolis persons as a former employe of the Eli Lilly & Co.

Four professors in the Carnegie Institute who claimed Indiana as their birthplace were at the table. Seven manual training teachers in Pittsburg schools also were present.

Records were produced at the dinner showing that Indiana has the lowest percentage of illiteracy of any state in the Union and has a greater number of prominent writers, artists and cartoonists.

Predicts Great Things.

"We are going to make that Indiana State Society of Pittsburg the greatest social organization in Pennsylvania," Mr. Parker declared yesterday. Discussing the banquet and the proposed reunion in September, Mr. Parker's eyes sparkled and his voice caught at the happy memories and the enthusiasm in it. The eternal, fraternal Hoosier liked meeting those of his own kind.

Plans for the big Pittsburg meeting have not been completed. If possible, a number of noted Indiana men will be asked to join the party and supply some good things from Hoosier land. Just what will be the outcome of that part of the plans Mr. Parker was not ready to say.

Informal as was the dinner given before, there having been not the slightest program or the least sort of a "slate," speeches were made one after the other, the only duty of Mr. Parker, as presiding officer, being to indicate which should have the floor next.

"When four Hoosiers get together in any corner of the earth," one Pittsburg paper commented editorially after the meeting, "they are just bound to organize an Indiana society."

MOTHERS OPPOSE THE TIGHT SKIRT

Present Style Immodest and Ungraceful, Say St. Louis Women.

WILL WAGE WAR ON IT

St. Louis, Mo., July 24.—The presidents of the thirty-eight St. Louis circles, National Congress of Mothers, met yesterday afternoon with Mrs. James G. Nugent, president of the Missouri branch, to discuss the question of the present day styles in women's dress. It was decided to inaugurate a campaign against the tight fitting skirt.

"This is not the first time the subject has been discussed by the St. Louis circles," said Mrs. Nugent. "But at this meeting we hope to devise plans for overcoming these extremes in styles. I favor the moderately short and moderately close fitting skirt, because it is convenient, does not collect dirt as a longer garment would, and is cleaned easily.

Some Carry Things Too Far.

"There is a class of people, however, who carry all such things too far, and we think it is time to act in a preventive way against letting the situation become any worse. I believe this subject should be taken up by women's organizations of all kinds. What our congress will do in a remedial way I am not able to say. We hope many feasible plans will be suggested, and that we can select from them some scheme of making all women realize the need of abolishing such uncomfortable, immodest and indecent styles as the very tight skirts now so common.

"We may ask the ministers to discuss the subject. The Rev. M. H. Lichliter has already denounced the tight fitting skirt and the enormous earrings, which he described as 'chandeliers.'"

Would End Present Styles.

Mrs. F. W. Baumhoff, president of the State Sunshine society, said she favored a campaign against tight skirts.

"I hope something can be done to end the present styles," she said "They are both immodest and ungraceful. A pretty form is desirable, but it is not a matter for public display. Such dresses on young girls are immodest and suggestive. On matrons they are unbecoming, because they accentuate the size, if nothing else."

Mrs. Dan W. Kneffer, president of the Women's Trade Union league, declared that if she had a daughter she would forbid her to wear skirts of the type now prevalent. They are not decent, she said.

Mrs. Everett W. Pattison, prominent in the art section of the Wednesday club, defends the tight fitting skirt as long as it is not carried to an extreme.

The flowing draperies of olden days are more artistic, but the closely fitting skirt is convenient and comfortable. It is ugly only when carried to extremes."

Twenty Five Prizes for Babies in the Handsome Class Alone at the Baby Show Wednesday, July 31st.

To make a distinction between the first, second and third prize babies in the Baby Show, is one of the most difficult things the judges have to do. There will be no distinction made this year on Wednesday, July 31st, at Robison park, but each one of the three handsomest babies will receive the same gift—twenty-six pieces of quadruple silver plate. Each prize will have a twenty-five year guarantee for actual and continual service. There is no need of any manager giving cheap plated ware as prizes, because there are many tomorrows, and by the time the annual Baby Show rolls around again, shoddy gifts are mute testimonies of insincerity on his part. The mothers that received prizes in 1911, show their gifts today with the same eagerness and pride that they manifested last year. After the three handsomest babies have been selected, twenty-two other babies will be chosen, not only for beauty, but for wholesomeness as well. Each one of these will receive handsome silver, gold-lined drinking cups of Grecian design.

THE REASONS

THE GREAT SUCCESS OF THIS BANK HAS BEEN DUE

1st. To the fact that the stock of the bank is widely distributed among 250 of our leading business men, professional men and farmers.

2nd. To the fact that it has a board of directors made up of 21 of the best known, active, successful Fort Wayne citizens. These take a personal interest in the bank, actively direct its affairs, and are proud of the record it has made.

3rd. To the fact that the officers regard their positions as places of public trust and do not run the bank in their own interest and for their own profit.
